Between:

Vancouver Terminal Elevators' Association

on behalf of

**Viterra Inc. – Cascadia Terminal
Viterra Inc. – Pacific Terminal
Richardson International Limited
Cargill Limited
Alliance Grain Terminal Ltd.**

(hereinafter called the "Companies")

Of The First Part

And:

Grain Workers' Union – Local 333, C.L.C.

(hereinafter called the "Union")

Of The Second Part

Witnesseth:

Whereas it is the intent and purpose of the parties hereto that this Agreement will promote and improve industrial and economic relations between the Union and the Companies, and to set forth the basic agreements covering the rates of pay, hours of work and conditions of employment to be observed between the Companies and the Union;

Now Therefore the parties hereto and the employees of the Companies covered by this Agreement covenant with each other as follows:

ARTICLE 1 – DEFINITION

- 1.01 The term "Employee" as used herein and for the purpose of this Agreement shall include all persons employed by the Company and for whom the Union is certified as the bargaining agent by the Canada Labour Relations Board.
- 1.02 The term "Company" as used herein and for the purpose of this Agreement shall mean one of the Companies party to this Agreement.

ARTICLE 2 – BARGAINING AGENCY AND RECOGNITION

2.01 Union Membership

Every employee who is now or hereafter becomes a member of the Union shall maintain his/her membership in the Union as a condition of his/her employment and every new employee whose employment commences hereafter shall within thirty (30) days after commencement of his/her employment apply for and maintain membership in the Union as a condition of his/her employment; provided that the Union shall not, without good cause, refuse membership to any applicant.

2.02 No Discrimination

The Companies shall show no discrimination and employ no discriminatory methods against membership in the Union.

2.03 Bulletin Boards

Each Company shall grant the Union the right to place bulletin boards in agreed upon places in the Plants for the purpose of posting Union notices, provided that all material so posted shall be approved by an officially designated representative of the Union and by the Terminal Manager or Supervisor. The Employer representative will not withhold approval unreasonably.

2.04 Dues and Assessments

- a. Each Company shall deduct from the wages of all employees and pay to the Union initiation fees, Union dues or money in lieu of Union dues, in the amounts following:
 - i. Initiation fees in the amount of \$50.00 or such amount as may be set by Union By-Laws from time to time, from the wages of those employees who the Union by written notice to the Company advises have been accepted as members of the Union.
 - ii. Union dues or money in lieu of Union dues in an amount per month equal to the sum of four (4) hours at basic rate as agreed to from time to time.
- b. The Company shall remit the moneys referred to in the subsection (a) to the Union at least once each month, together with a written statement of names of the employees for whom the deductions were made and the amount of each deduction.
- c. Each Company shall honour a written assignment of wages to the Grain Handlers Holding Society.

- d. An Assignment pursuant to subsection (c) shall be substantially in the following form:

Until this authority is revoked by me in writing I hereby authorize you to deduct from my wages and pay to the Grain Handlers Holding Society:

Assessment in the amount of \$10.00

- e. Unless the Assignment referred to in subsections (c) and (d) is revoked in writing to the Company, the Company shall remit the assessments deducted to the Society at least once each month, together with a written statement of the name of the employees for whom the deductions were made and the amount of each deduction.

ARTICLE 3 – MANAGEMENT

- 3.01 All rights heretofore possessed and exercised by a Company are exclusive rights of the Company except to the extent that they are modified by provisions of this Agreement, provided, however, that these rights will not be used for the purpose of discrimination against employees.

ARTICLE 4 – HIRING

- 4.01 When a Company requires Watchpersons and student employees the Union will have the first opportunity to supply persons possessing proper qualifications, health and ability to fill the vacancy. If the Union is not able to supply persons to meet the requirements of the position within a reasonable period of time from notification, the Company may hire from any source.
- 4.02 The Union agrees that persons who have been discharged from employment in the industry for proper cause shall not be eligible for re-employment in the industry except at the sole discretion of the Company.
- 4.03 All part-time and full-time Watchpersons shall be employees of the Company, subject to the following conditions:
- a. Watchpersons must perform their duties during a strike or lockout whether such strike or lockout is in the terminal where the Watchpersons are employed or otherwise.
 - b. Full-time Watchperson jobs shall be subject to the job posting procedure.

ARTICLE 5 – CONTINUOUS OPERATIONS

5.00 (a) The parties agree that the provisions of this Article are applicable when the Companies operate their facilities on a scheduled continuous (7 day) basis.

(b) i. The shift schedule for continuous operations shall be in accordance with the Ready Award dated January 8, 2003 and the Ready Award dated September 23, 2003, or a variation of that schedule that is mutually agreed to by the parties. Employees will only be paid for hours worked pursuant to the continuous schedule (rather than being paid for 40 hours when they work less than 40 hours in a week as a result of the schedule).

ii. The general assumption is that all employees at all facilities will be included in the scheduling regime for continuous shift operations. However, certain limited job functions may be required to be scheduled on a non-continuous basis, which is anticipated to arise in very limited circumstances.

(c) Employees working on Saturday and/or Sunday shall be paid as follows:

Saturday – 1.125 the hourly rate

Sunday – 1.25 the hourly rate

This provision applies to all employees, save and except students. The premium payable to students for scheduled Saturday work shall be the same amount as the “second shift” premium set forth in Article 6.06 of the collective agreement; and the premium payable to such employees for scheduled Sunday work shall be the same amount as the “third shift” premium set forth in Article 6.06 (such premium to be in addition to the premium which would in any event be payable under Article 6.06 -- i.e., to those employees actually working on a “second or third shift”).

(d) A continuous operations umpire will be appointed in accordance with the Letter of Understanding attached to this Collective Agreement.

(e) The filling of all vacancies and of new positions shall be governed by seniority subject to the requirements of competence and fitness and the efficient operation of the elevator. Such vacancies and new positions will be promptly bulletined for forty-eight (48) hours (not to include the five non-working General Holidays) on a bulletin board provided in the elevator in which they occur. Employees who make application during the forty-eight (48) hour period will be considered for the position subject to the right of employees on vacation or who are absent due to scheduled days off, sickness or accident or who are on leave of absence during the period of the job posting to apply for such position within a three (3) day period after their return to work. In order that an employee who was absent due to days off would become aware of the posting upon return from days off, the posting will remain up for five days.

(f) Dual Classifications

- i. A dual classification shall be a classification which involves the performance of the duties encompassed by two classifications. Dual classifications are intended to enable the company to implement continuous shift operations without excessive overstaffing. Employees in a dual classification may be assigned to the duties of either of the classifications making up the dual classification.
- ii. The company may establish a dual classification where it is necessary to avoid excessive overstaffing. It is understood that a dual classification may be eliminated or re-established, or a new dual classification created, provided always that the criterion is the avoidance of excessive overstaffing.
- iii. Dual classifications shall be posted in accordance with the provisions of the collective agreement.
- iv. Where a dual classification is comprised of two classifications having different rates of pay, the employee shall be paid the higher of the two rates, regardless of the job function being performed.

(g) Overtime

The implementation of a continuous shift schedule requires a re-definition of overtime together with a re-statement of overtime premiums as follows:

- i. Time worked in excess of the scheduled hours in a work day or any hours worked on an employee's scheduled day off shall be considered as overtime and shall be paid at the rate of double time except that the first eight (8) hours of overtime worked on a scheduled day off of a block of days off shall be paid at the rate of time and one-half.
- ii. Where due to a shift change of an employee necessitated by the operation of the terms of this Agreement, an employee's scheduled hours of work under the current schedule exceeds an average of 37.3 hours of work per week in a shift cycle, the employee shall be compensated for such excess scheduled hours at the rate of double time. The average of 37.3 hours of work per week shall not be used in order to calculate overtime for overtime work of less than one shift.
- iii. Employees will not be permitted to bank overtime.

(h) General Holidays

Under continuous operations, Easter Monday will not be a General Holiday, but will be replaced with Easter Sunday. With the exceptions noted below, a General Holiday will not constitute a break in the normal operation of the shift cycle. The five exceptions

are: Labour Day, New Year's Day, Easter Sunday, Christmas Day and Boxing Day, and these days shall be designated as non-working General Holidays.

An employee who is scheduled to work on a General Holiday will be paid in accordance with the collective agreement and will be granted a lieu day with pay. In short, the employee will be paid double time for working the General Holiday, and will get a later day off with pay. The lieu day will be taken at a time mutually agreeable to the company and the employee. Employees who request and are granted a lieu day at least two weeks in advance of the requested day off shall be guaranteed such day off. Management will not unreasonably deny such advance requests.

An employee will, on their request, have the option to have up to six (6) of their lieu days bought out per year. This option must be exercised annually by January 31 for the previous year's lieu days. This will supersede any present lieu day Letter of Understanding.

- (i) Employees taking vacation shall commence their vacation on the first day of a six day work block.
- (j) Employees who are scheduled to be on shift only at the time that a Union meeting is called for union elections and ratification of a new collective agreement, shall receive time off with pay limited to three hours.
- (k) Reversion to Non-Continuous Operations
 - i. Employers have the right to move from a non-continuous schedule to the continuous schedule and vice versa upon two weeks notice.
 - ii. Employees moving from continuous to non-continuous operations and vice versa will receive overtime payment at two times their base rate for the first two days on which they commence work on the new schedule provided the change is at the insistence of the company or the employee has successfully bid on a posting that requires the employee to move from continuous to non-continuous or vice versa. Employees who voluntarily make changes to their schedules are not entitled to any payment under this clause.
- (l) Except where indicated otherwise, the current collective agreement will be equally applicable to continuous shift operations as to non-continuous operations.
- (m) In establishing a continuous work schedule, the Companies should plan to have employees scheduled to fill the positions for the work required.
- (n) In implementing a continuous work schedule, it shall commence on a Monday. The last day for a continuous work schedule before reversion to a non-continuous work schedule shall be a Friday.

- (o) Employees who are “short” hours as a result of a change in their shift schedule shall be provided with the opportunity to work more hours at straight time to make up for the lost hours. Employees who are “long” hours as a result of a change in their shift schedule shall be paid overtime for those hours worked in excess of their previous crew schedule for that period.
- (p) When a Company reverts from one system of hours of work to the other systems of hours of work, employees who are actively at work at the time of change will be paid overtime at two times their base rate for the first 2 days on which they commence work on the new hours of work system.

ARTICLE 6 – HOURS OF WORK AND OVERTIME

6.01 Work Week

Each of the Companies and the Union agree that the standard work day shall consist of eight (8) hours and the standard work week shall consist of forty (40) hours, Monday to Friday inclusive. The Monday to Friday provisions shall not apply to watchpersons and relief watchpersons (a relief watchperson is an employee of a Company who regularly substitutes for the watchpersons on the watchperson's days off and who normally works less than the standard week). The Companies will not institute swing shifts. Regular starting and quitting times for the various shifts will not be changed except by mutual agreement between a Company and the Union.

6.02 Overtime

Time worked in excess of standard hours of work as specified in Article 6.01 shall be considered as overtime and shall be paid at the rate of double time for such overtime hours. Except for watchpersons and relief watchpersons, time worked on Saturday shall be considered as premium time and shall be paid at the rate of time and one-half for the first eight (8) hours and at the rate of double time thereafter.

At Cascadia Terminal and Richardson International Limited, except for ship tie up crews, an employee called in to work on Saturday shall be guaranteed a minimum of eight (8) hours at the rate of time and one-half for that day.

- (a) Employees shall not normally be expected to work overtime where employees in the same classification are on layoff. However, either in emergency conditions or where the operational requirements of the employer render it impractical to call back such laid off employees overtime shall be worked. The employer will give reasonable notice of overtime requirement, the employers undertake to recall, where practical, laid off employees in the same classification.
- (b) Employees will not be requested to work more than four (4) hours overtime on any standard work day except in emergencies or where it is necessary to complete

loading a vessel to enable the vessel to shift or sail. In such events, employees will not be requested to work more than six (6) hours overtime. If mutually agreed to by the Union and the Company, the above-mentioned limit of four (4) hours overtime on any standard work day may be extended to six (6) hours.

- (c) Employees on day shift will not be requested to work overtime on regular Union meeting nights except in emergency situations.
- (d) Whenever an employee is called upon to work overtime any part of one (1) hour, he/she shall be paid as though he/she had so worked for the whole of that one (1) hour.
- (e) An employee who is embarking on working overtime following the completion of his or her shift shall take a twenty minute break at the end of their regular shift before the overtime shift begins on the hour. In lieu of a hot meal the employee shall receive \$10.00 for each overtime shift over 2 hours worked after their regular shift.

6.03 Shifts

- (a) The day shift for employees shall be from 7:00 a.m. to 3:00 p.m. with a twenty (20) minute break for lunch, except for employees loading ships who, by mutual agreement between the Company and the Union, work a different schedule. An employee who is required to work during his/her lunch period will be paid overtime at the rate of double time and shall not be sent home early to avoid payment of overtime rates; provided, however, that this arrangement shall not apply to an employee working on shift and for whom (by mutual agreement) there is no scheduled lunch period, nor to an employee whose lunch period (by mutual agreement) is one-half hour and goes home one-half hour prior to the regular quitting time.
- (b) Whenever practicable the Company will arrange that employees shall alternate between the first, second and third shifts consecutively and that employees are to rotate their work as aforesaid.
- (c) The Company shall not call employees to return to work with less than eight (8) hours break between shift changes.

6.04 Overtime

- (a) Double time shall be paid to all employees other than watchpersons and relief watchpersons, when required to work on Sundays, with a minimum of eight (8) hours. Except in the case of an emergency caused by an equipment breakdown, the Company shall give adequate notice of Sunday overtime to employees, at least by 3:00 p.m. Friday, and shall first give separate notice to the shop steward.

- (b) Watchpersons and relief watchpersons (if the relief watchperson is normally working a full standard work week) shall receive prearranged days off in lieu of Saturday and Sunday. When required to work on either of their days off they will be paid time and one-half for their first day which is in lieu of Saturday and double time for their second day which is in lieu of Sunday.
- (c) Should it become necessary to shut down a terminal for any reason during a shift, employees on the shift will nevertheless be paid the eight (8) hours pay for the shift.

6.05 (a) With the exception of employees of Cascadia Terminal, and Richardson International Limited, called in to tie up a ship as provided for in Article 6.05(c), employees called in before their regular starting time shall be paid double time for work up to one hour, and for work over one hour, a minimum of four hours at double time, unless otherwise arranged by mutual agreement between the Company and the Union Plant Committee or a Shop Steward. It is understood that no one shall be called back after the meal break for less than the four (4) hours service or pay equivalent thereto. The said meal break for employees shall be the first twenty minutes following their standard work day, and any work performed during the meal break shall be paid for at the rate of double time.

(b) Employees will not be called into work overtime before their regular starting time for more than two (2) hours unless there is an emergency, breakdown or an unplanned shortage of employees to carry out the work. If an employee is called in earlier than two (2) hours they will be paid two (2) hours pay at double time.

(c) Employees of Cascadia Terminal and Richardson International Limited who tie up a ship at any time outside their regular working hours shall be paid for such work at double time with a guaranteed minimum of three (3) hours' pay.

6.06 **Shift Premium**

Employees, other than watchpersons and relief watchpersons, working on a second or third shift shall receive a premium of One Dollar and Twenty-Five Cents (\$1.25) and One Dollar and Seventy-Five Cents (\$1.75) per hour respectively.

6.07 **Notice of Layoff**

(a) Forty-eight (48) hours notice of layoff, and more if possible (not to include Saturday or Sunday or Holidays) shall be given hourly paid employees except when and so often as the Company is unable to operate its elevator for the taking and discharging of grain because of fire, power failure outside of the elevator, railway tie-ups or strikes, not within the control of the Company. An employee given forty-eight (48) hours notice of layoff is guaranteed sixteen (16) hours work or sixteen

(16) hours pay. Notice of lay off will expire if an employee is not laid off in accordance with the notice.

- (b) At the time of posting a notice of layoff, the Company will deliver a copy of the notice to the Union Plant Committee.
- (c) Notice of layoff will commence upon notification to the employee or the Union regardless of whether the employee is actively at work or is absent as a result of being on their days off, vacation or any other approved leave of absence. If it is not possible for the Company to contact an employee, notice of layoff provided to the Union shall be considered to be sufficient notice.

ARTICLE 7 – GENERAL HOLIDAYS

- 7.01 (a) The following days shall be considered as General Holidays on which employees other than watchpersons and relief watchpersons shall not be required to work:

- | | |
|---|---|
| <input type="checkbox"/> New Year's Day | <input type="checkbox"/> Thanksgiving Day |
| <input type="checkbox"/> Good Friday | <input type="checkbox"/> Christmas Day |
| <input type="checkbox"/> Easter Monday | <input type="checkbox"/> Boxing Day |
| <input type="checkbox"/> Victoria Day | <input type="checkbox"/> Remembrance Day |
| <input type="checkbox"/> Canada Day | <input type="checkbox"/> Labour Day |
| <input type="checkbox"/> British Columbia Day | |

Any general holiday proclaimed by the Federal Government or Provincial Government of British Columbia shall be granted to employees with the same conditions as a General Holiday.

Hourly rated employees shall be paid for the aforementioned General Holidays for eight (8) hours at regular rates provided that in order to qualify for such payment, any employee must have worked within the 15-day period immediately prior to the Holiday or within the 15-day period immediately after the Holiday, and in the case of a new inexperienced employee, must have had at least thirty (30) days employment with the Company.

- (b) For work performed on the aforementioned General Holidays double time shall be paid except to watchpersons and relief watchpersons.
- (c) Watchpersons and relief watchpersons (if the relief watchperson is normally working a full standard work week) required to work on a General Holiday will be scheduled another day off with pay in lieu of the General Holiday. When required to work on their day off which is in lieu of the Holiday they will be paid double time.

- (d) In the event that any of the General Holidays in Article 7.01(a) should fall on either Saturday or Sunday, employees shall receive a holiday with pay on the working day immediately following the General Holiday.

ARTICLE 8 – WAGES

8.01 Basic Rate of Pay

From and after the 1st day of January, 2011, the rates of pay for all employees shall be as is set out in the schedules attached hereto and forming part hereof. The Companies will pay the rates set out on the said schedules PROVIDED that when new inexperienced hourly rated employees are hired (other than watchpersons) they shall be paid for the first thirty (30) days of employment at ten cents (\$.10) per hour less than the basic rate obtained at the time of their being hired. During the first ninety (90) days of employment, the performance of all new employees will be reviewed to determine whether the employee is capable of carrying out the duties of their employment in the industry.

- 8.02 Commencing January 1, 2011 students will be paid at 95% of the General Labourer rate, minus \$1.00, regardless of the specific jobs performed by the students. Commencing January 1, 2013, students will be paid at 90% of the General Labourer rate, minus \$1.00, regardless of the specific jobs performed by the students.

ARTICLE 9 – POSTING AND VACANCIES

9.01 Changes in Employment

There shall be no immobilization of labour and it will not be open to any employee to refuse to engage in any employment during his/her regular hours. Any employee assigned to a higher rated position for a period of over two (2) days shall be paid at the wage rate prevailing for such higher position. When an employee is assigned to a higher rated position for the purpose of relieving another employee who is absent due to sickness, accident or regular vacation, he/she shall be paid the wage rate prevailing for such higher position provided it is understood that he/she will go back to his/her own category when the person he/she is relieving returns to the job. An employee shall continue to enjoy the rate for his/her classification when relieving another employee in a lower-rated classification who is absent due to sickness, accident or regular vacation. However, if he/she is transferred to a lower-rated position, his/her rate will be reduced to that of the new classification after the expiration of fifteen (15) days if such transfer is due to the application of the seniority provisions, and immediately if such transfer is due to demotion for just cause. If an employee returns to his/her classification as a result of the application of the seniority provision and is later transferred to a lower rated position, his/her rate will not be reduced to that of the new classification until the expiration of fifteen (15) days.

9.02 **Posting**

The filling of all vacancies and of new positions shall be governed by seniority subject to the requirements of competence and fitness and the efficient operation of the elevator. Such vacancies and new positions will be promptly bulletined for forty-eight (48) hours (not to include Saturdays, Sundays and Holidays) on a bulletin board provided in the elevator in which they occur. Employees who make application during the forty-eight (48) hour period will be considered for the position subject to the right of employees on vacation or who are absent due to sickness or accident or who are on leave of absence during the period of the job posting to apply for such position within a three (3) day period after their return to work.

9.03 **Training**

Employees who wish to train for other jobs within the terminal may notify the Company and the Union in writing, stating the job for which training is desired. The Company will select, by seniority, and subject to the efficient operation of the terminal, such employees for training. During training there shall be no change in the employee's job rate. This shall not restrict the Company's right to lay off employees.

ARTICLE 10 – VACATIONS

10.01 Employees shall receive an annual vacation with pay in accordance with the provisions of this Article.

10.02 **Length of Vacations and Time for Taking Them**

- (a) Each employee who has completed one (1) year of service shall receive two (2) weeks vacation to be taken by him/her between the first anniversary of his/her employment and the end of the calendar year in which that anniversary occurs.
- (b) After each of the following anniversary dates, an employee if he/she remains in the service of the Company, shall be entitled to vacation during the term of this agreement as follows:
 - Second – Two (2) Weeks
 - Third through Eighth – Three (3) Weeks
 - Ninth through Fourteenth – Four (4) Weeks
 - Fifteenth through Nineteenth – Five (5) Weeks
 - Twentieth through Twenty-fourth – Six (6) Weeks
 - Twenty-fifth and Succeeding Year – Seven (7) Weeks

Provided, however, that an employee who has passed his/her Second, Eighth, Fourteenth, Nineteenth or Twenty-fourth anniversary of his/her employment may take a week of vacation in addition to the weeks to which he/she is entitled (herein called

the "additional week"). Such additional week must be taken between the applicable anniversary and the end of the calendar year in which that anniversary occurs.

Vacations must be booked by February 28 and confirmed by March 15 of each year.

10.03 Pay for Vacations

Pay for vacations shall be made as follows:

- (a) In the case of entitlement to two (2) weeks vacation with pay, 4% of the total wages earned by the employee from the date of his/her employment to the first day of his/her first vacation or from the first day of his/her preceding vacation to the first day of the vacation for which the pay is being paid.
- (b) Except as provided in Article 10.03(c), in the case of entitlement to three (3) weeks, four (4) weeks, five (5) weeks, six (6) weeks or seven (7) weeks vacation with pay,

either:

- i. 6%, 8%, 10%, 12% or 14% respectively, of the total wages earned by the employee from the first day of his/her last vacation to the date of commencement of the vacation for which the pay is to be paid,

or

- ii. If the Employee has worked a minimum of fifteen (15) days since the date of his/her last vacation, that part of 120 hours pay, 160 hours pay, 200 hours pay, 240 hours pay or 280 hours pay respectively as in the same proportion as the number of days from the date of his/her last vacation to the commencement of the vacation for which pay is to be paid bears to 365 days,

whichever is the greater.

In the Article "pay" means the employee's regular straight time rate of pay in force on the date of commencement of the vacation for which pay is to be paid.

- (c) Notwithstanding Article 10.03(b), when an employee passes his/her second, eighth, fourteenth, nineteenth or twenty-fourth anniversary of his/her employment between vacations he/she shall be paid,

either:

- i. 4%, 6%, 8%, 10%, or 12% respectively from the first day of his/her last vacation to the date of commencement of the vacation together with 2% for the period from

his/her second, eighth, fourteenth, nineteenth or twenty-fourth anniversary of his/her employment to the date of commencement of his/her vacation,

or

- ii. If the Employee has worked a minimum of fifteen (15) days since the date of his/her last vacation that part of 80 hours pay, 120 hours pay, 160 hours pay, 200 hours pay or 240 hours pay respectively as is in the same proportion as the number of days from the date of his/her last vacation to the commencement of the vacation for which pay is to be paid bears to 365 days, together with that part of 40 hours pay as is in the same proportion as the number of days from second, eighth, fourteenth, nineteenth or twenty-fourth anniversary of his/her employment to the date of commencement of the vacation bears to 365 days,

whichever is the greater.

10.04 For greater certainty, it is hereby declared that an employee does not have entitlement to the additional week for the purpose of calculating pay under Article 10.03(a) and (b). The Company shall pay him/her therefore (whether such week is taken in conjunction with the vacation to which he/she is entitled under Article 10.02(b) or separately) in accordance with Article 10.03(c).

10.05 (a) An employee who terminates his/her service before he/she has completed one (1) year of service so that he/she has not earned an annual vacation shall receive as vacation pay an amount equal to 4% of the wages earned by the employee during his/her period of service.

(b) An employee who terminates his/her service after completing one (1) year of service shall receive vacation pay pro rata except that:

- i. an employee who terminates his/her employment during a transition year but before he/she has taken his/her vacation shall not receive vacation pay for the additional week.

- ii. an employee who terminates his/her employment during a transition year after he/she has taken his/her vacation, but before he/she has completed the necessary years as provided in Article 10.02(b) shall be deemed to be indebted to the Company for the amount he/she has been overpaid. The Company may deduct the amount of any such indebtedness from any amount owing to the employee at the date of termination of employment.

(c) Transition years are the second, eighth, fourteenth, nineteenth and twenty-fourth years of service.

- 10.06 Vacation pay shall be paid to the employee in one (1) payment at least one (1) day before the beginning of his/her annual vacation. No employee shall be paid Supplemental Unemployment Benefit Plan benefits for more than thirty-five (35) weeks in a calendar year.

During the two (2) week waiting period presently imposed by Employment Insurance, before E.I. benefits are paid, each laid-off employee covered by this Supplemental Unemployment Benefit Plan who is otherwise eligible for E.I. benefits shall receive one-half (50%) the supplemental Unemployment Plan benefits provided under this Article 24.07.

This is intended as make-up, and if the Employment Insurance payments should change during the life of the Agreement, the amount of make-up will be reviewed by both parties.

Should an employee on temporary lay-off earn income from other sources, the company will not reduce the supplemental unemployment benefit payment by the amount earned; neither will the supplemental unemployment benefit payment be increased as a result of the reduction of an employee's unemployment insurance benefit caused by earnings from other sources. (This change must be approved by Employment and Immigration Canada.)

In no circumstance will the combined weekly level of unemployment insurance benefit, Supplemental Unemployment Benefit Plan benefits and all other earnings exceed the limit established for the purpose of the registration of supplemental unemployment benefit plans of 95% of the employee's normal weekly earnings.

- 24.08 The payment of benefits to employees on temporary lay-off will be made by the employer on a "pay as you go" basis separate from the regular payroll. Accordingly, on the winding up of the Plan there will be no funds for distribution.
- 24.09 No employee shall have any right, title or interest in or to any employer contribution in the Plan.
- 24.10 No benefit payment to an employee shall be subject in any way to alienation, sale, transfer, assignment, pledge, attachment, garnishment execution, or encumbrance of any kind and any attempt to accomplish the same shall be void. In the event that such an attempt has been made, the employer in its sole discretion may terminate the

interest of such person in such benefit and apply the amount of such benefit to or from the benefit of such employee and any such application shall be a complete discharge of all liability with respect to such benefit payment.

- 24.11 This Plan shall be effective on and after January 1st, 1993, but it is understood and agreed that notwithstanding the said effective date the Plan must be approved by the Employment Insurance Commission and the Department of National Revenue.
- 24.12 Payments such as guaranteed annual remuneration, deferred remuneration or severance pay benefits are not reduced or increased by payments received under this plan.

An employee who is scheduled to work on an afternoon or night shift

and is absent in accordance with the above, shall not be required to work on his/her scheduled shift for the time that he/she would have been necessarily absent if scheduled on a day shift.

Re: Hiring

During the negotiation which led up to the conclusion of the Collective Agreement for the term January 1, 1987 to December 31, 1989 it was agreed that the Companies would assume the direct responsibility of hiring new employees other than Watchpersons and Students.

It was agreed that the Company in exercising the right to hire new employees would adhere to certain principles as follows:

1. The Companies will give a fair and equal opportunity for consideration for employment to all applicants for employment without discrimination or favouritism.
2. The Companies will adhere to the spirit as well as to the requirements of law with respect to hiring.
3. The Companies will not hire tradespersons and persons trained to carry out technical skills to perform work in any other capacity than as tradespersons or other technical classifications.
4. The Companies will not encourage student employees to continue in employment beyond their period of employment as students, or attempt to employ them as regular employees.

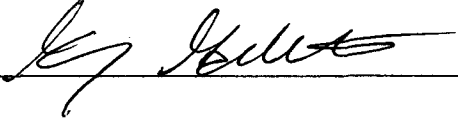

It is agreed between the Companies and the Union that former students can be considered for employment as regular employees after a lapse of one (1) year from the date of graduation from a post secondary program. For student employees who do not pursue post secondary education, or who fail to graduate from a post secondary program, the restriction is two (2) years from the date they ceased their education program.

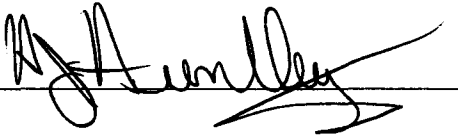

In order for the Union to ensure that the above principles are properly implemented, the Union can periodically review with the Companies the hiring procedures of the Companies. The Union may also file a grievance under Article 14 of the Collective Agreement if they allege that the hiring procedures of a Company are in contravention of the above principles.

New employees will be directed to the Union office to complete their Union application forms prior to actually starting work.

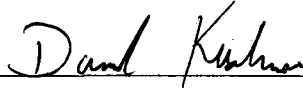

Nothing in this Letter of Understanding will preclude the Union from making suggestions to the Companies with respect to suitable candidates for employment.

Early Start Times

During the negotiations leading to the establishment of a Collective Agreement for the term January 1, 1990 to December 31, 1992, the Union requested and the Association agreed to institute earlier start times in the grain elevators which are operated by members of the Association in the Port of Vancouver.

1. The earlier start times, as outlined in this Letter of Understanding, are being adopted to reduce the travel time and inconvenience of employees. The implementation of these start times will be monitored by the parties to ensure that there are no unforeseen difficulties in implementing these changes. Also, these changes are subject to any modifications made as a consequence of implementing continuous operations schedules.
2. The start time of employees who are engaged in shipping operations will not be changed unless a grain elevator is shipping on all three shifts, at which time the shipping operation will have the same start time as the rest of the grain elevator.
3. Other than as provided in paragraph 3, the start times will be as follows:

Day Shift	7:00 a.m. to 3:00 p.m.
Afternoon Shift	3:00 p.m. to 11:00 p.m.
Night Shift	11:00 p.m. to 7:00 a.m.

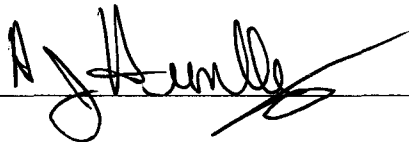

4. It is agreed that a standard night shift (Monday to Friday inclusive) which commences at 11:00 p.m. will not result in the payment of overtime for the first hour worked.

For purposes of interpreting other provisions in this Collective Agreement, night shift shall be deemed to begin on the same day as it ends.

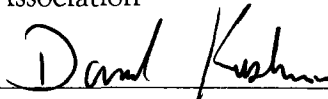

5. The early start times will commence at 11:00 p.m. February 23, 1992.

Shipping Hours of Work

During the negotiations which gave rise to the Collective Agreement for the term January 1, 1990 to and until December 31, 1992, the parties agreed to change the starting times in the terminal elevators. As a consequence of this change in starting times, certain operational difficulties have developed with respect to shipping and related operations.

Further to the above, in late April of 1994 the Vancouver Port Corporation held a Port Users' Conference at Winnipeg to discuss grain issues. Several members of the grain trade attended this meeting, including farmer/producers, representatives from Labour, shipping, stevedoring and the grain companies. One of the main issues discussed was shipping hours in the Port of Vancouver and how the grain workers worked until midnight and the ILWU worked until 1:00 a.m., resulting in a loss of over one hour of shipping time. The parties involved agreed to meet and resolve the issue. The grain companies and the Grain Workers' Union, Local 333 met on June 28, 1995.

As a consequence of discussion, it has been agreed:

1. Employees who are working on an Afternoon Shift on a Friday or Saturday who are engaged in direct shipping classifications (such as Panel Control Operator, House Inspector, Gallery man, Basement man and others) may be needed to work overtime without a break for an additional hour's overtime from 12 midnight to 1:00 a.m. In such a circumstance, those employees will be paid one hour's overtime pay at double time.
2. Employees who are working on a Friday or Saturday on an Afternoon shift whose hours of work would normally be completed at 11:00 p.m. may be needed to work up to an additional two hours' overtime without a break to 1:00 a.m. if their activity is directly related to supporting shipping operations. For example, if the employee is working the 3:00 p.m. to 11:00 p.m. Afternoon shift and is needed to fill in for employees engaged in the shipping operations who choose not to work overtime until 1:00 a.m., or if the employee is engaged in the track shed in circumstances where the grain which is being unloaded is required to be loaded directly onto the vessel. Those employees will be considered to be part of the shipping operation for these purposes and may be needed to work overtime as described above. In such circumstances, those employees will be paid two hours' overtime pay at double time.
3. Employees who are working Monday to Thursday on an Afternoon shift (4:00 p.m. to 12:00 midnight) and who are engaged in direct shipping classifications (such as Panel Control Operator, House Inspector, Gallery man, Basement man and others) may be needed to work overtime without a break for an additional hour's overtime from 12:00 midnight to 1:00 a.m. In such a circumstances, those employees will be paid one hour's overtime pay at double time.

4. Employees who are working Monday to Thursday on an Afternoon Shift (3:00 p.m. to 11:00 p.m.) and whose hours of work would normally be completed at 11:00 p.m., may be needed to work up to an additional two hours' overtime without a break to 1:00 a.m. if their activity is directly related to supporting shipping operations. For example, if an employee is working the 3:00 p.m. to 11:00 p.m. Afternoon Shift and is needed to fill in for an employee engaged in the shipping operation who chooses not to work overtime until 1:00 a.m., or if the employee is engaged in the track shed in circumstances where the grain which is being unloaded is required to be loaded directly onto the vessel. Those employees will be considered to be part of the shipping operation for these purposes and may be needed to work overtime as described above. In such circumstances, those employees will be paid two hours' overtime pay at double time.

5. For any time worked past 1:00 a.m. on either Saturday or Sunday, there shall be guarantee of a minimum of eight hours pay at the applicable overtime rate less the pay received for the overtime worked until 1:00 a.m.

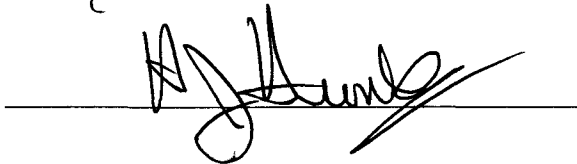

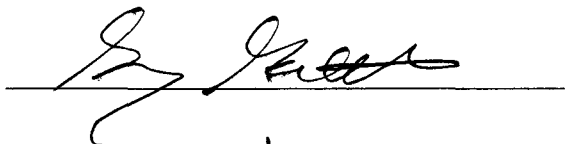

For any time worked past 1:00 a.m. on a Monday to Friday, the applicable overtime rates as per Article 5 of the Collective Agreement shall apply.

6. The Collective Agreement between the parties shall be deemed to be modified to the extent necessary to permit the implementation of this Letter of Understanding.

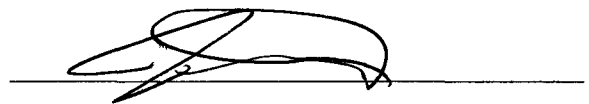

7. This Letter of Understanding is entered into for the purpose of dealing with the unique circumstances of shipping on Monday to Thursday and/or Friday and Saturday nights. It is not intended that this Letter will change the operation of the Collective Agreement in other circumstances.

8. This Letter of Understanding shall apply to all members of the Vancouver Terminal Elevators' Association.

Re: Hours of Work While on Training

1. The parties agree that the following arrangements will apply when an employee participates in a training program or course away from the work place (such as apprenticeship or first aid training).
2. An employee who is scheduled to attend a training program or course will complete their scheduled work (if any) on Friday and will take Saturday and Sunday as days of rest. 1. The 10 hour schedule will not be implemented prior to January 1, 2004 unless otherwise mutually agreed upon by the parties.
2. The 10 hour system will be as described in the Attachment to this Letter, and is a six day schedule (Monday – Saturday).

5. Maintenance activities may be conducted on the 6x3 continuous schedule and on the 10 hour shift schedule or the 5x2 non-continuous schedule, but not on all three.
6. When an Employer is operating on the 10 hour schedule, all positions shall be scheduled on the 10 hour schedule except maintenance.

 - b) There is no penalty incurred when moving to or from one non-continuous schedule to other approved non-continuous schedules.
 - c) Weekend premiums for continuous operations do not apply to this system.
 - d) The concept of lieu days does not apply to the 10 hour schedule as it is not a continuous schedule.
8. As employees will regularly work 10 hour shifts, hours worked over eight hours during a regular scheduled work day would not be considered to be overtime.

9. No shift premiums are payable on the first or day shift on the 10 hour schedule. Employees working on the second or afternoon shift shall receive a second shift premium of \$1.30 per hour for that entire shift.
10. a) An employee working on a scheduled day off will receive time and a half for the full amount of the first overtime shift and double time for subsequent overtime shifts worked in that week unless the day worked is a Sunday and in that case the rate of pay will be double time regardless if it is the first day worked.

b) Employees on a 10 hour shift system will not be requested to work more than two (2) hours overtime on any standard work day except in emergencies or where it is necessary to complete loading a vessel to enable the vessel to shift or sail. In such events, employees will not be requested to work more than four (4) hours overtime. If mutually agreed to by the Union and the Company, the above-mentioned limit of two (2) hours overtime on any standard work day may be extended to four (4) hours.
11. General Holidays will be treated in the following manner.

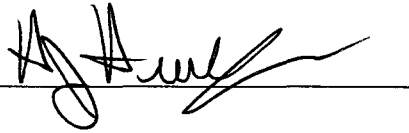

Employees working on a General Holiday shall be paid double time for the hours worked plus one day's pay at their base rate of pay.

Employees not working on a General Holiday shall be paid one day's pay at their base rate of pay, and double time for the hours worked on their next scheduled working day immediately following the General Holiday.
12. Sunday is not a regular day of work under this schedule. Therefore vacations will be taken commencing the first day of a work block which would be a Monday. A vacation week would constitute four 10 hour days or 40 hours of vacation time.
13. All job postings will be bulletined for a minimum of 7 days.
14. Employees on the 10 hour shift system shall be entitled to a one-half hour lunch break per shift.
15. All WCB or sickness and accident payments will be based on hours worked.

16. If a watchperson position is routinely filled, then the watchperson shall be placed on a non-continuous shift.

Mechanical Trades – Charge Hands (Article 22)

The Companies agree to post to fill two positions of Charge Hands in the Mechanical Trades Department. It is agreed the current Charge Hands in each Terminal will be grandfathered in their positions. It is further agreed one Charge Hand will hold a sheet metal red seal ticket and the other will hold a millwright red seal ticket.

The individual Companies will post for Charge Hand positions pursuant to Article 9.02 of the Collective Agreement.

Both Charge Hands will be working Charge Hands and take instruction from the Maintenance Managers. If traditional Charge Hand duties (i.e. scheduling, assigning duties, assisting and training employees) are required on a particular shift, seniority will determine which Charge Hand on shift will perform these duties.

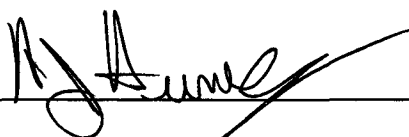

If a Company schedules more than six mechanical tradespersons on a regular shift schedule, that Company will post for one additional Charge Hand for that shift.

A Charge Hand may be assigned to another shift on a temporary basis for specific mechanical requirements.

Apprentices (Article 22)

The issue of the appropriate training for apprentices into the Mechanical Trades has been in dispute since the amalgamation of the trades introduced into the Collective Agreement by the arbitration award of Vince Ready on January 8, 2003. The parties have agreed on the manner in which apprentices will be trained. This Letter sets out this agreement.

1. If a Company decides to apprentice one or more employees, it shall post for a "Mechanic Apprentice" in either the millwright or sheet metal trade. It is expected that the successful applicant will become a "red seal" qualified journeyman in the trade for which he/she attends school.
2. While training as an apprentice and after they have been awarded the "red seal" certification, the apprentice will be expected to take training either in house or off site (as per management's discretion) to enhance their ability to perform work in either trade.
3. Apprentices will develop their skills in both trades by assisting in either trade as assigned by the Charge Hands or Maintenance Managers. Charge Hands will be responsible to report the progress of Apprentices as they learn the skills of a mechanic involving both trades.
4. Each terminal has its own specific needs so the Employer will have the right to tailor their training to the specific needs of its terminal.
