It is recognized that during the months of July and August, vacations are restricted to a maximum of two (2) weeks. If however, all employees have chosen their vacation, and there is extra room on the vacation schedule, employees may be allowed, with Company approval, to schedule more than two (2) weeks. Substantiated requests will be dealt with individually. The Company will grant payment of vacation pay in the above mentioned situations. Receipt of such payment by the employee shall not constitute termination of employment.

Individual requests for payment of vacation pay for the current period in lieu of vacation will not be considered for employees who are on layoff. It is agreed that where an employee requests and receives vacation pay at the time of, or during a layoff, the employee shall have self-terminated his/her employment with the Company.

Requests for current vacation pay will be in writing and signed by a member of the Union Plant Committee.

- l) Employees may bank vacation credits in excess of the legal requirement to a maximum of two (2) weeks per year for purposes of retirement, up to a maximum of fifteen (15) weeks. Banked vacations must be taken prior to retirement and will be paid at the employee's current rate of vacation pay at the time when taking the banked vacation time off.

Employees on WCB or STD who are expected to return to work that decide to retire must also provide sixty (60) days notice otherwise they will be paid out and their retirement date will be the date they would have been expected back at work.

- a) An employee who elects to participate in the plan shall notify the Personnel department and sign a form authorizing his participation in the plan.

Upon reaching the eighty (80) hour maximum, further banking must be in accordance with (a), (b), or (c).
 - iv) An employee will be allowed to bank a maximum of one hundred and twenty (120) total hours per year.
- c) Deferred overtime hours shall be accumulated during the period from September 1 to August 31 and thereafter for each twelve (12) month period commencing September 1.
- d) Compensating time off shall be accumulated in units of eight (8) hours.
- Accumulated time off must be taken in multiples of eight (8) hours. At the end of the accumulation period, for any balance of hours less than eight (8), the employee shall receive normal overtime payment.
- e) Compensating time off not taken or arranged for by March 1 of each year will be automatically paid out.

 - b) For double time, an amount equal to one-half of the double time overtime earnings.

Employees must sign up for overtime no less than two hours before the end of their current shift for the next shift.

When allocating overtime Supervisors will remove the list, draw a line and initial with date and time to indicate the cut off for the particular overtime shifts to be scheduled. This practice will be repeated each time overtime shifts are filled to demonstrate that the current list was used.

The process to fill the shift will be as follows:

- i. Overtime will then be scheduled using persons on the sign up list using seniority by department as the guiding principle.
- ii. If there are no names on the list capable of or willing to work the required shift, the supervisor will then approach those currently on the machine requiring staffing and again utilize department seniority as a guiding principle with this group.
- iii. If after steps one and two are completed and the supervisor is still unable to fill the shift, they will then be free to fill the shift in the most expeditious manner possible based on availability of personnel with the necessary training to complete the task.

Note: The current weekend overtime rule will continue to apply for Saturday and Sunday An unscheduled machine or job will be crewed by the employee(s) who are working overtime. The regularly scheduled employees will not bump into those overtime positions. c) **REST AND LUNCH BREAKS**

It is understood that where an employee is working overtime beyond a regular shift, such work shall be preceded by a ten (10) minute paid rest period or the rest period may be taken soon after commencement of the overtime work.  - ii) When the employee is given fourteen (14) hours notice of the change in starting time, no call time is payable.
 - iii) When a change in shift is made at the request of an employee to comply with seniority regulations, no call time is payable.
 - iv) When the change in shifts during the week is temporary, the call time is not payable for the second change in shifts when the employee returns to his previously established shift.

Section 2:

It is understood and agreed that in the payment of call time on the basis provided in this section, a minimum of four (4) hours pay will be paid for each call when work has actually commenced, it being understood that such payment will include the payment for call time and payment for the time worked whether at straight time or at an overtime rate.

ARTICLE 14 - EMERGENCY BREAKDOWN

Section 1:

In case of emergencies such as fire, earthquake, major breakdown of equipment or other major disaster, the employee shall receive a minimum of two (2) hours pay, unless the employee is requested to remain, in which case he shall be paid for the hours worked at the appropriate rate of pay.

Section 2:

The Plant Committee will meet and judge whether an emergency existed.

Section 3:

The Company can expect reasonable cooperation where maintenance emergency services are required for all emergencies or replacement work which would cause a drop in production and a layoff of production employees.

ARTICLE 15 - SENIORITY

Section 1 – Probationary Employees:

- a) An employee will be considered probationary until he has completed sixty (60) working days with the Company. This period may be extended by mutual agreement of the Plant Committees.
- b) In the event of a layoff a probationary employee may be terminated. A probationary employee recalled will receive credit for each period of employment in calculating his sixty (60) working day probationary period, and at the completion of the probationary period his plant seniority will be adjusted to sixty (60) working days prior to completion.

Section 2 – Lines of Progression:

Where practical, lines of progression will be established to provide an orderly advancement or curtailment of the work force in each department line of progression.

- a) In all the lines of progression, vacancies occurring during the week will be filled by the next senior employee "on shift".
- b) In the Material Handling line, once the employee's line seniority puts them next to be trained as shipper (relief), a decision has to be made; one to remain in the clamp driver position, two, return to the line, excluding the clamp driver, and move up into the shipper position.
- c) In the Finishing Department, all jobs at the same pay rate are considered equal within the Line of Progression and for the purposes of scheduling employees.

Section 3 – Promotions:

- a) Starting positions in any line of progression or jobs not covered under line of progression shall be posted for a period of ten (10) working days. Other things being equal, the principles of seniority will govern. New employees must have completed their probationary period prior to posting.

In the event more than one applicant posts for an opening and the employee selected returns to his former position as per subsection (b), the posting shall remain valid for one further selection. The posting shall remain valid for the probationary period as outlined in subsection (b).

Employees who are on vacation and related leave of absence will be considered for job postings if they have left written notice with the company indicating their interest. Such notice will be valid for a maximum period of four weeks.

The Union Standing Committee will receive copies of all completed job postings.

- b) i) In the case of an employee who is accepted for a job as a result of a posting for a vacancy, his first thirty(30) days after reporting to the new job (which shall consist of a minimum of ten (10) days of actual work experience) will be considered a probationary period. This period may be extended through mutual agreement of the Union and the Company. During this period the Company might deem necessary to transfer the employee back to his former job or the employee may elect to do so of his own volition. In either case the employee will return to his former job with no loss of seniority rights.

Employees who repost into a position they have previously occupied may not receive a probationary period, provided the employee has already worked a minimum of ten (10) consecutive days on the job within the preceding six (6) months before the job posting closes, and it is mutually agreed to between the Company and the Union Plant Committees.

During the probationary period the employee cannot use his previously established seniority for overtime selection in the new department or line of progression but retains that right in his previous department or job.

When an employee posts for a job, he will be paid the applicable job rate (i.e. – not the status rate) for the probationary period.

Any employee who posts for a job and then decides, of his own volition, to go back to his original job during the probationary period, will not be able to post for that job again for a period of twelve (12) months.

Upon completion of the probationary period, the employee must accept or decline the new position. If accepted, thereafter, the employee will advance to the next higher job (rate) as determined by the line of progression.

- ii) If a posting is unfilled, the most senior employee who does not hold a posting will be placed into the position.

The ability of the employee to decline this position as per article 15 section 3 (b) (i) does not apply in this circumstance.

- iii) An employee who is accepted for a job as a result of a posting for a vacancy and has started training will not be able to post to another position for a period of Twelve (12) months.
This item will only apply to line of progression postings or if the employee was not previously forced into a position.

- c) An employee may be "signed off" on a job for a bona fide reason(s). The number of employees permitted to "sign off" on a job shall be limited to the number that does not prevent proper training or promotion for the job(s) above it in the line of progression.

Sign offs are intended to be permanent. However either the Company or the employee may request a sign off to be reviewed if circumstances change. At least one year must pass before such a review can be requested. All sign off requests and requests for Review shall be in writing. All sign offs and rescinded sign offs must be approved by the Union and the Company.

An employee who is "signed off" a job in the line of progression shall not be entitled to assignment above the job rate signed off. If a sign off is reviewed and rescinded, the employee will be placed behind the employee(s) who has since by-passed him.

An employee who is signed off a job rate in a line of progression shall have no right to overtime at the signed off rate (or above) in that line of progression.

Section 4 – Curtailments:

a) Curtailments

- i) In the event of a curtailment an employee in line of progression will revert down the line in the reverse order of promotion as indicated.
- ii) An employee without sufficient line of progression seniority to remain on any job in the line shall revert to a job in the plant which requires a minimum of experience.
- iii) An employee faced with a layoff shall displace a junior employee (plant seniority) on any job he can perform competently without endangering life and limb of other employees, property, and for which the employee has the necessary physical capabilities.

In the event of a disagreement arising out of the foregoing, the Plant Committee will meet to discuss the problems.

- iv) An employee reassigned as the result of a curtailment will not establish any other department or line of progression seniority, but will retain all seniority held at the time of the reassignment.
- v) An employee reassigned as the result of a curtailment shall not be entitled to use his seniority to obtain a higher rated job.
- vi) Laid-off employees will be recalled in order of plant seniority.

b) Friday Curtailments

The Company and Union agree that during slow periods "Friday Curtailments" are preferable to layoffs. This will not limit the Company's ability to layoff employees.

It is further agreed that "Friday Curtailments" shall be handled in the following manner:

- i) When the Company anticipates a "Friday Curtailment" may be necessary, they will use their best efforts to post a sign up sheet on Monday of that week.

Any employee wishing to take the Friday off will show their intention by signing the sign up sheet.

An employee may, at their option, use any accumulated time off to cover lost wages incurred by taking a "Friday Curtailment".

- ii). Should the Company decide that some work will be performed on the "Friday Curtailment" day, then the senior (plant seniority) qualified employee(s) within the department who have not signed the sheet will perform the work.
- iii) If not enough qualified employees are available to perform the work on the "Friday Curtailment" day, then the balance of the crewing will be selected, by reverse seniority (plant seniority) within the department, of those qualified to perform the work, from the sign up sheet.
- iv) An employee will be deemed to be qualified as per their standing on the training matrix.

Section 5 - Temporary Transfer:

An employee temporarily transferred to another job will not establish any other department or line of progression seniority, but will retain all seniority held at the time of reassignment.

Section 6 - Layoffs:

The following rules will apply to employees, other than probationary, who are laid off due to a shortage of work.

- a) Laid off employees shall retain their seniority on the following basis:
 - i) An employee with less than one (1) year of continuous service shall retain seniority for nine (9) months from the date of layoff.
 - ii) An employee with one (1) or more years of continuous service shall retain seniority for eighteen (18) months from date of layoff plus one (1) additional month for each year of service up to an additional twenty-four (24) months.
- b) An employee who REQUESTS and receives his vacation pay for the current period of employment will be considered to have terminated his employment. Requests for current vacation pay will be in writing and signed by a member of the Union Plant Committee.
- c) Failure of an employee to report for work within one (1) week of notice to his last address reported to and received by the Personnel Department shall result in termination of his or her employment with the Company. Bona fide reason for failure to report shall not deprive an employee of his recall rights.
- d) Medical Services Plan of B.C., Extended Health, Dental, Group Life Insurance and A.D.& D. Continuance.
 - i) The above listed coverage for an employee laid off with more than three (3) months but less than one (1) year of service shall be continued at the employee's option for three (3) months from the end of the period

for which deductions have already been made. Benefit plans in existence will be reinstated upon his return to work.

- ii) The above listed coverage for an employee laid off with one (1) or more years shall be continued at the employee's option for six (6) months from the end of the period for which deductions have already been made. Benefit plans in existence will be reinstated upon his return to work.

Section 7:

Where a layoff results from a permanent partial plant closure or a temporary closure in excess of ninety (90) days, the Company will participate in a program of training or retraining for another job within the operations to facilitate the exercising of plant seniority, recognizing there will be limitation where special qualifications are required. Phasing in arrangements to implement the program will be discussed by the Company and Local Union and shall be concluded prior to the date of closure.

All layoffs which take place within one hundred and eighty (180) calendar days will be considered cumulative for the purposes of training.

ARTICLE 16 - JOB SECURITY

Section 1:

Objective

Any employee who loses his job directly or indirectly due to a management decision to permanently downsize or eliminate a department or job category, or through technological change, will be entitled to choose between rate protection or severance.

Technological Change

The Company and Union recognize that technological change, while necessary to the industry, may have an impact on employees. It is the purpose of the following provisions to assist employees in adjusting to the effects of such change.

Definition - Technological change, which term shall include automation, mechanization, and process change, means the introduction of equipment or material of a different nature or kind than that previously utilized, or changes in the operation that are directly related to the introduction of that equipment or material.

Job Category Elimination

In the event management decides to permanently discontinue a job category on the basis that management does not anticipate re-establishment of the job category within the foreseeable future, a permanent "Job Category Elimination" will be deemed to have occurred.

A job category is defined as a grouping of jobs with similar duties and the same wage rate. With the exception of a Bundler/Helper which crosses departments, job categories apply to the same machines in a department and more than one employee can work in the same job category. Job categories are shown in Article 31- Wage Schedule.

A job will be deemed to be eliminated on the earlier of the following:

- (a) When the Company gives notice that a job is eliminated.
- (b) When a machine is unbolted
- (c) When a machine sits idle for twelve (12) months.

Section 2 - Joint Committee:

A joint committee on automation will be established at the plant which shall consist of two (2) persons representing the Management and two (2) persons representing the Union. It shall be the functions of the committee to study the affects of mechanization, technological changes and automation on employment in the plant and to make such recommendations as are agreed upon to the Plant Manager, to ensure that the interests of the Company and the employees are fairly and effectively protected.

Section 3 - Notice:

The Company will advise the appropriate committee as soon as possible and in any case not less than ninety (90) days before the introduction thereof of job category elimination, of mechanization, technological changes, and/or automation

which the Company has decided to introduce and which will result in terminations or other significant changes in the employment status of employees.

The Company will advise the appropriate committee or committees as soon as possible and in any case not less than thirty (30) days before the expected date of the change of the anticipated time sequence of final installation and production start-up and the anticipated effect on the job status of individual employees.

The Company will advise the appropriate committee as soon as possible and in any case not less than 30 days before the permanent reduction of crewing of a machine

Section 4 – Seniority:

- a) In the event that it is necessary, crews will be reduced in accordance with ARTICLE 15 - SENIORITY of the agreement.

Technological Change

- b) An employee who is set back to a lower paid job because of mechanization, technological change or automation will receive his status rate at the time of the setback for a period of six (6) months, and for a further period of six (6) months he will be paid an adjusted rate which will be midway between his status rate at the time of the setback and the rate of his new regular job. At the end of this twelve (12) month period, the rate of his new regular job will apply.

However, such an employee will have the option of terminating his employment and accepting severance pay as outlined in Section 5 a) below, provided he exercises this option within the above referred to twelve (12) month period.

- c) An employee assigned to an equal or higher rated job because of mechanization, technological change or automation will have the option of terminating his employment and accepting severance pay as outlined in Section 5 a) below if the job should be proved to be unsuitable, provided he exercises his option within six (6) months of starting on the job.

In case of a dispute concerning suitability of the job, the employees may process a grievance.

Job Category Elimination

- d) An employee working on a job category at the time it is eliminated who is set back to a lower paid job will receive the rate of the job category eliminated for a period of six (6) months on the basis of the average percentage of the time spent on the job during the six (6) months immediately prior to its' elimination.
- e) Following the six (6) month period, he will receive an adjusted rate midway between the rate of the job category eliminated and the lower paid job category on which he is working for a further six (6) month period on the basis of the average percentage of time spent on the job category eliminated during the six (6) months immediately prior to its elimination. At the end of the twelve (12) month period, the employee will receive the rate of the job on which he works.
- f) However, an employee having one (1) or more years of continuous service, who is working on the job category eliminated at the time of its' elimination will have the option of terminating his employment and accepting severance pay, provided he exercises this option within a three (3) month period, as outlined in Section 5 a) below.
- g) An employee set back to a lower paid job directly because of application of seniority involved in Job Category Elimination at the time of the Job Category Elimination will be entitled to the benefits of 4 (d) and (e) above.
- h) If the job category eliminated should be re-established within one (1) year, an employee(s) who receives the benefits of 4 (d), (e), (f), and (g) above shall have the right to return to his former job with the seniority he would have held had the Job Category Elimination not occurred, unless he has since been terminated.
- i) An employee who elects not to return at the time the option is open to him will lose the right to return later with his seniority.

Permanent Reduction of Crewing on a Machine

- j) An employee set back to a lower paid job directly or indirectly due to managements decision to permanently reduce crewing on a machine, will then be entitled to the benefits of 4 (d) and (e) above.

Section 5 - Severance:

- a) An employee with one (1) or more years of continuous service for whom no job is available because of job category elimination, mechanization, technological changes or automation will, upon termination, receive a severance allowance calculated by the following method:

Years of Employment	Weeks*/Year	% of Earnings
1st (20) years	2	4%
Subsequent years	1	2%
Maximum severance	52 weeks*	2080 hours

* Defined as 40 hours at straight time

- i) At the time of separation the employee shall have the option of receiving his severance allowance on termination, or he may elect to have his severance allowance held in abeyance for up to one (1) year from the date of termination. He may apply in writing at any time during the year, at which time the full severance allowance will be paid forthwith.
- ii) Employees will have their welfare coverage continued for the current month plus two (2) additional months from their date of termination.
- b) Such employees for whom no employment is available will be given at least thirty (30) days notice of separation.
- c) The process for offering severance is as follows:

Step 1

The person whose job is being eliminated will have the choice of rate protection or severance as per the Collective Agreement.

Step 2

Should the person referred to in Step 1 decline severance, then it will be offered to the most senior person on the layoff list on the day the person referred to in Step 1 leaves his position. If there is no one on layoff or he declines it, then the severance will be offered to the most junior person on the plant seniority list. If the junior person declines severance, then no further severance will be offered.

Step 3

Should the person referred to in Step 1 decline severance, then the person they bump will not be entitled to severance, unless they turn out to be one of the persons referred to in Step 2.

Section 6 – Training:

The Company agrees to participate in a program of training or retraining for another job within the operation for those employees who are displaced under the circumstances set forth in this section.

Section 7 - Total Plant Closure:

The provisions of this Article shall also apply to a total plant closure.

The Company will advise the Union Plant Committee as soon as possible and in any case not less than ninety (90) days prior to a planned plant closure. An employee terminated as a result of permanent planned closure of the plant shall be given a minimum of sixty (60) days notice of the closure.

Severance for total plant closure shall be two (2) weeks per year of service to a maximum of sixty (60) weeks.

Employees will have their welfare coverage continued for the current month plus two (2) additional months from their date of termination.

Section 8 – General:

ARTICLE 17 – CONTRACTING

1. The Company will not bring a contractor into the plant:

- (i) which directly results in the layoff of employees, or
- (ii) to do the job of employees on layoff, or
- (iii) to do the job of a displaced employee working outside his job category.

2. It is not the intent of the Company to replace its' regular workforce through the use of contract firms.

For clarity it is agreed that:

- (1) The changes which provide that it is not the intent of the Company to replace its' regular workforce through the use of contract firms will not set aside existing external work arrangements and practices.

ARTICLE 18 - BEREAVEMENT LEAVE

Section 1:

When death occurs to a member of a regular full time employee's immediate family, the employee will be granted an appropriate leave of absence and he shall be compensated at his status rate for hours lost from his regular schedule for a maximum of three (3) days. The employee will be required to furnish proof of performing such service and such duty pay received.

Section 2:

ARTICLE 20 - SUPERVISORS

No supervisor or salaried person will perform work normally done by bargaining unit employees, unless such work is required for training and/or instructing employees to perform the task. Such occasions must be temporary in nature and must not result in the displacement, layoff or exclusion of employees

ARTICLE 21 - SAFETY

Section 1:

It is agreed that the Company will give consideration to the safety and physical well being of every employee in every phase of every job. No other responsibility will take preference. No employee will have to work under unsafe working conditions or with unsafe equipment. Any unsafe working conditions should be reported to the supervisor immediately by an employee. Immediately following, the supervisor, the employee and his area safety representative should meet and discuss the matter reported.

If no satisfactory solution is arrived at, the matter should be reported to the production manager, who will then immediately meet with the employee and safety representative.

If all steps fail to produce a satisfactory solution, and an employee has reasonable cause to believe that an unsafe condition exists, the employee may refuse to work under such condition without being subject to discipline. The matter may then be taken up with the Workers Compensation Board.

It is further understood that all employees are obliged to abide by the safety rules established.

Section 2:

The Safety Committee, consisting of no less than three (3) members representing the Company and no less than three (3) members representing the Union shall be selected to deal with all questions of safety. Plant safety rules adopted by this committee shall be submitted to the Joint Plant Committee for review prior to being posted in the plant.

Area and/or department safety meetings shall be held at least once a month.

A procedure shall be adopted whereby all lost time injuries and "near miss" incidents will be thoroughly investigated by a joint committee and a written report issued.

Section 3:

It is agreed that a member of the Union Plant Committee, or an alternate designated by the Committee, will accompany Workers' Compensation Board inspectors on plant visits.

The Company shall reimburse each employee after completion of their probationary period, to a maximum of \$90.00, for the purchase of one (1) pair of safety footwear per contract year (July 1 to June 30). Employees may combine this allowance over two (2) contract years, in which case they would have an allowance equal to \$180.00.

Employees with proven special footwear requirements due to confirmed medical needs shall have the full cost of such footwear reimbursed under this policy.

- a) A complete job description.
- b) A physical demands analysis which indicates in detail the demands of the particular occupation.

From these documents an evaluation is made to identify the essential and peripheral elements of the particular occupation. With input from the Employer, these evaluations will ensure an appropriate identification of the key or essential elements of a particular occupation.

2. In the event the employee's claim is further denied and the employee wishes to further appeal the decision of the carrier, the claimant may, within fourteen days, refer the denial of benefit to the Joint Union-Management Committee.

If the Committee is unable to resolve the disputed claim, the issue will, within fourteen days, be referred to a third party for resolution.

3. The mutually agreed upon third party shall have the right to review the claim file, require further examinations or testing of the claimant by a specialist. Costs incurred for medical examination or specialist testing shall be borne by the carrier. The costs of the third party shall be borne equally by the Union and the Employer.
4. The third party will endeavour to complete the assessment and reach a decision on the issue under appeal within fourteen days of referral.
5. The decision of the third party shall be binding upon the parties and the carrier.

Any part of a day involved with the project shall be considered one (1) day). The Company may post projects with an expected duration of less than seven (7) working days at its discretion.

Should the Company not post for a special project position which is filled by a member of the bargaining unit, and this position subsequently runs for longer than seven (7) days, then, at the start of the eighth (8th) day the work on the project will stop and the member of the bargaining unit filling this position will be returned to their regular job. Special project postings will have a maximum duration of 90 calendar days. This time period will start on the day the posting closes and will end 89 calendar days later. This time period may however, be extended by mutual agreement between the Company and the Union.

All special project postings will be handled in the same manner as regular job postings as specified in the collective agreement.

Applicants will be tested in order of seniority and the first candidate demonstrating the minimum required skill will be accepted for the project. Testing in order of seniority shall continue until the required numbers of employees are accepted.

It is agreed that there will be guidelines for skill testing for special project positions. These guidelines are:

1. Tests to be developed and submitted to the Union/Management committee for comment, revision, and approval.
2. Tests to demonstrate minimum skills, not necessarily competency at a particular skill. The Company recognizes that employees may desire a special project position in order to gain or improve some of the required skills. The employee must only demonstrate basic skills and the ability to learn.
3. Tests to be of short duration, usually no more than fifteen (15) minutes.
4. Test results to be shared with and discussed with the employee.

Should no employees apply for a special project posting, or should all applicants be found unacceptable through the testing process, the Company may then offer the special project position to any employee, regardless of seniority or may, at its discretion, cancel the project.

Sexual harassment is coercive and one sided and both males and females can be victims.

Racial harassment includes, but is not limited to, any unwanted comments, racist statements, slurs and jokes. It also includes racist graffiti and literature including articles, pictures and posters.

Any employee who is determined to be in violation of this Policy may be subject to disciplinary action, up to and including discharge from employment.

Section 3 – Relationship to Grievance Procedure:

Harassment complaints must be processed through the harassment policy. Any employee who is disciplined as a result of this policy will have the right to institute a grievance after all avenues through the harassment procedure are exhausted.

If a grievance is to be submitted, it will proceed directly to the Joint Standing Committee.

Any notes, documents, reports, discussions or information arising from a harassment investigation will be shared between the parties when a grievance is submitted.

Section 4 – Communications:

The Company will communicate this policy to all employees. The Company will also provide appropriate education and training for supervisors, managers, and Complaint Officers in dealing with and understanding issues of harassment.

COMPLAINT INVESTIGATION AND RESOLUTION PROCEDURE

Section 5 – Complaint Officers:

1. The Company will designate four (4) non bargaining unit employees who will be the Complaint Officers for the purposes of investigating allegations of harassment. The Complaint Officers will be chosen in consultation with the Union and will include both male and female contacts. The list of Complaint Officers will be reviewed and published annually. (Section 12). The list of Complaint Officers may be changed by the Company through consultation with the Union.
2. Complaint Officer(s) will have full authority to investigate the merits of the complaint and, while respecting the principles of confidentiality and fairness for both the complainant and respondent, conduct as quick and thorough an investigation as possible.

Section 6 – Procedure:

1. A harassed employee should clearly communicate to the harasser that the offending behaviour is objectionable and unwelcome. The harasser should be asked to stop. The harassed employee should remind the harasser that the behaviour is contrary to policy. The harassed employee should keep a written record of all relevant facts (e.g. – dates, times, witnesses, nature of the offending behaviour, how the harassed employee responded to the offending behaviour, etc.).

This is often the simplest and most effective way to put an end to harassment and employees are encouraged to take this action. However, employees are not obliged to confront the harasser and, if a person experiencing harassment is unwilling or unable to do so, or if the misconduct continues after confrontation, the affected employee should report the offensive behaviour as outlined below.

2. A person experiencing the harassment may meet with a Complaint Officer to review the complaint procedure, definition of harassment, etc. The complainant will be informed of the alternate courses of action including formal investigation of the complaint.
3. All incidents of harassment should be reported as quickly as possible. Incidents that are reported after a significant period of time has elapsed will be more difficult to investigate and resolve.
4. In all circumstances, an individual who is accused of harassment will be informed of the allegations made against them and all the particulars supporting the allegations, and will also be provided with the opportunity to fully respond to the allegations and have their responses properly considered.

The complainant will be provided with the particulars of the respondents defence and will have a chance to reply.

Section 7 – Investigation and Resolution:

1. If the complainant chooses to pursue the matter formally then a formal investigation will be undertaken. The complainant must submit a signed, written complaint to trigger the investigation. The complainant will be kept informed of the progress of the investigation and input will be encouraged wherever possible.
2. A complainant may terminate this process at any time by withdrawing the complaint. However, the Company may conduct an investigation independent of this process if warranted.
3. Once an incident is reported, the Complaint Officer will conduct a swift and thorough investigation and will attempt to mediate a resolution to the complaint. The investigation will be conducted on a confidential basis in that only those persons who, in the opinion of the Complaint Officer need to know about the complaint for the purpose of conducting an investigation will be advised. Any employee contacted during the course of an investigation will keep the matter confidential. The complainant's identity will be made known to the respondent.
4. If the matter remains unresolved the Complaint Officer will submit a written report to the Plant Manager outlining the facts, issues, and credibility. The Human Resources Manager will meet with the Complaint Officer to discuss recommendations.
5. The Human Resources Manager will then decide the issue and forward the decision, in writing, to the complainant and respondent. The decision will be implemented immediately unless a further appeal ensues.
6. If a significant period of time has elapsed between the occurrence and the reporting of the incident, the Complaints Officer may, after investigation, decide that such incident is not resolvable due to the time delay. Such a decision will be made known to the complainant and respondent and a written report will be submitted to the Human Resources Manager. The Human Resources Manager will then review the case and will issue a written decision to the complainant and respondent. This will put an end to the matter unless a further appeal ensues.

Section 8 – Appeal Procedure:

The complainant or respondent may appeal any decision of the Human Resources Manager. Notice of intent to appeal must be made in writing to the Human Resources Manager within seven (7) days of receiving a decision.

Upon notice of intent to appeal, the complainant and respondent will attempt to agree on an outside Disputes Resolution Officer (refer to Section 13). If no agreement is reached within seven (7) days from the date of the notice of intent to appeal, then the selection will be in rotation, starting with the first available on the list. On the second event where mutual agreement fails to select a Disputes Resolution Officer, the rotation will start at the person next in line, on a first available basis. This system of rotation will continue for all further cases where mutual agreement is not possible.

The appeal itself must be delivered, in writing, to the Disputes Resolution Officer no later than thirty (30) days following this person's selection. The appeal must include a brief statement of facts and list the issue or issues being appealed. A copy of the original complaint and the report being appealed must be included with the appeal. Any other information the person initiating the appeal feels is relevant or important should be also included.

The Disputes Resolutions Officer will, as soon as possible following receipt of the written appeal, review all the facts. The Disputes Resolution Officer may, at their discretion, seek any additional pertinent information. They may interview the complainant, the respondent, and other employees, or make any other enquiries they deem appropriate.

The Disputes Resolution Officer will prepare and issue a written report which will include a decision on the matter. Such decision will be final and will not be subject to further appeal. A copy of the report will be forwarded to the complainant, the respondent, the Human Resources Manager and the General Manager.

If the Company, whether acting on recommendations or not, should issue discipline, then the recipient of the discipline has the right to institute a grievance as per Section III Relationship to Grievance Procedure.

Section 9 – Right to Representation:

Both the complainant and respondent are entitled to have one representative in any complaint that is forwarded to the Disputes Resolution Officer. If the complainant and respondent are both bargaining unit members, then their representatives must be members of Unifor.

If the respondent is a non bargaining unit member and the complainant is a bargaining unit member, then the complainant's representative must be a member of the Unifor

Lawyers may not be used as representatives.

Representatives must adhere to strict rules of confidentiality and may not discuss the case with each other without prior permission of their principles.

Section 10 – Disciplinary Responses:

If harassment has been identified, any one or more of the following responses may be deemed to be appropriate in the circumstance:

- a) Require a verbal or written apology by the harasser
- b) Require individuals and / or workgroups to go through an education process
- c) Require performance reviews focusing on behaviour and / or conduct
- d) Issue a written warning to the harasser
- e) Reassign (transfer) the harasser to another area
- f) Require the harasser to undergo mandatory counselling
- g) Issue discipline to the harasser, up to and including termination
- h) Any other response as deemed appropriate

Section 11 – General:

Harassment complaints are taken seriously and as such abuse of this policy will not be tolerated. Frivolous complaints, vexatious complaints, and / or repeated, unfounded complaints by an individual will be subject to harassment proceedings or disciplinary action against the complainant, as per Article 5 of the Collective Agreement.

Section 12 - Complaint Officers:

This selection of Complaint Officers will enable employees involved in a dispute to choose someone from within the Company to hear their complaint.

The list of Complaint Officers will only be changed in consultation with the Union.

The list of Complaint Officers will be posted.

The complainant may choose any one of the Complaint Officers. In the event that the Complaint Officer chooses to decline to hear the complaint, another Complaint Officer will be chosen by the complainant.

Section 13 – Disputes Resolution Officers:

The Company and the Union will agree on a list of Disputes Resolution Officers. Any additions to, or deletions from, this list must be by mutual agreement. The list of Disputes Resolution Officers will be reviewed, published annually.

The persons listed have agreed to serve in the capacity of resolving disputes arising from the harassment policy.

The Company and Union agree to split the costs involved for the Disputes Resolution Officers when resolving complaints.

No. 3 – LETTER OF UNDERSTANDING ON EMPLOYEE PARTICIPATION FOR BENEFITS COSTS

Norampac Richmond Division and the Union, CEP Local 433 agree that considering:

- 1 - the plant's situation;
- 2 - the rising cost of benefits;
- 3 - to raise the awareness of the employees;

the employees will participate in the future increases of benefit costs.

This will be done over and above the employees' participation (30%) in STD and LTD premiums. Starting July 1, 2009, an employee with a family plan will pay a flat rate of \$6 per week and an employee with a single plan will pay \$3. On July 1, 2010 the contribution will remain at that level as long as the overall health and dental premium increase for active employees does not exceed 8%. In the event where the overall health and dental premium increase for active employees is greater than 8%, the contribution will be set at \$8 per week for a family plan and \$4 for a single plan. This information will be provided by Morneau Sobeco.

The same process will apply for the policy year starting on July 1, 2011. The contribution rate will remain at the same level as 2010 as long as the overall health and dental premium increase, for active employees, from July 1, 2009 to July 1, 2011 is less than 16%. In the event where the overall health and dental premium increase for active employees is greater, the contribution will then be set at \$10 per week for a family plan and \$5 for a single plan. This information will be provided by Morneau Sobeco.

After obtaining his 4th class power engineer certificate, the employee will receive the 4th class steam engineer rate, according to the wage schedule under article 31, when performing 4th class engineer's duties.

Joint Union-Management Committee

This committee will be comprised of two Union and two Management representatives.

The purpose of this committee will be to develop and supervise the procedures required to carry out the intent of the program as agreed to. The committee will also carry out the following duties:

The Company will inform the Joint Union-Management Committee of such standards as tests and scores required for acceptance, and of any subsequent changes in those standards, and be given opportunity to review an employee's test results, if requested by the employee.

1. Upon successful completion of the Department of Education Correspondence Course for a Fourth Class Stationary Steam Engineering Certificate or possessing equivalent qualifications acceptable to the Vocational School authorities, employees shall be granted three (3) weeks' leave of absence with pay to attend the Vancouver Vocational School (or equivalent) to complete the course and write the examination for the Fourth Class Stationary Engineering Certificate.
2. One week's pay shall be equal to forty (40) hours at the employee status rate.
3. Leave of absence with pay will be granted to Steam Plant personnel on the basis as set forth in 1 and 2. Any further Vocational training required to pass each respective certificate shall be at the employee's expense and such additional leave of absence will be granted.

The Company will bear the cost of the prescribed examination and tuition fees, if any, required of candidates writing the Stationary Engineering Certificates.

4. Leave of absence will be granted at a time suitable to the Company, bearing in mind the Vocational School curriculum.
5. Normally it will not be possible to grant leave of absence to more than one (1) Steam Plant employee at a time. However, if relief is available this limit may, at the discretion of the Company, be exceeded.
6. If at any time provision is made whereby transportation and/or other allowances are granted by the Government to Steam Plant personnel attending an approved Vocational School to write for Stationary Engineering Certificates, the provisions set forth above will then be amended to take into account such Government allowance.

General

Trainees do not accrue any department seniority until after their training program is completed, but once completed their department seniority will be backdated to the date they started only if they are filling a permanent vacancy. Trainees outside of the department, utilized as relief, will not accrue departmental seniority. - Level of education (applicants must have a minimum of Grade 12 with math 11)

No.5 LETTER OF UNDERSTANDING - PRINTING DEPARTMENT LINE OF PROGRESSION

As a result of the recently negotiated Collective Agreement for 2008 to 2012, the Company and Union have entered into the following agreement with respect to the line of progression in the Printing Department.

The Company and Union agree to split the line of progression below the Die Room into two parallel lines – flexos and Wards. As a result, the line will consist of the Die Room at the top, two parallel sections for the flexos and the Wards, and a common pool at the bottom. This change will reduce the movement of employees between flexos and Wards so that the employees will improve their knowledge and skill with respect to operating their specific machines.

Posting

Seventeen (17) positions will be available in the flexo portion of the line. Twelve (12) positions will be available in the Ward portion of the line. Any remaining employees in the department will not hold specific machine positions within the line and will have no preferential rights to work on either the flexos or the Wards.

Printing Department employees will post into either the flexo or the Ward portion of the line based on their departmental seniority. The posting process will begin with the most senior employee who does not currently hold a position in the Die Room. Each employee will have 2 working days to make their decision once their turn comes up. There will be no probationary period.

In the future after the initial posting process for the new split line is complete, vacancies in the flexo or the Ward portion of the line will be posted within the Printing Department. Any Printing Department employee will be eligible. Selection will be based on departmental seniority. The successful employee will assume the bottom position in whichever side of the line that is posted. In such cases, there will again be no probationary period unless agreed to by the Company and the Union.

Employees will be expected to advance out of the common pool to fill vacancies on either the flexos or the Wards based on their departmental seniority.

Positions in the Die Room will be available to trained operators in either the flexo or Ward portion of the line based on their departmental seniority. No employee will be required to move into the Die Room. In the event that the senior operator declines the opportunity, the position will be offered to the next most senior operator.

Scheduling

All jobs at the same pay rate will be considered equal within the line of progression and for the purposes of scheduling employees.

Curtailments & Layoffs

In the event of a curtailment or layoff, an employee in the flexo or Ward portion of the line will revert down their side of the line in the reverse order of promotion. However, an employee faced with being displaced from the Printing Department shall displace a junior employee (departmental seniority) on any job in either side of the line as long as they can perform that job safely and competently.

Overtime

Employees will be eligible for any overtime regardless of which side of the line they are posted into as long as they can perform that job safely and competently.

Grandfathered Employees

All employees currently trained as flexo operators will be able to bump into the Ward operator positions as long as they remain qualified to operate the Wards safely and competently. It is also agreed that the Company has the right to keep these employees on the flexos but pay them the Ward operator rate. For clarity, this right to rate protection also only survives as long as these employees remain qualified to operate the Wards safely and competently,

Competency and Training

Employees will be deemed to be competent to perform a job as per the following:

Operate similar machines (e.g. 35 flexo operator to operate the 32 flexo)

- if they have been trained for that job, and
- if that job has not changed significantly (e.g. no significant changes to the equipment, procedures or duties)

Operate other machines (e.g. flexo operator to operate a Ward)

- if they have been trained for that job,
- if they have performed that job for at least 40 hours over the preceding 12 months, and
- if that job has not changed significantly (e.g. no significant changes to the equipment, procedures or duties)

Slot on a flexo or Ward

- if they have been trained for that job, and
- if that job has not changed significantly (e.g. no significant changes to the equipment, procedures or duties)

Palletize on a flexo or bundle on a Ward

- if they have received general safety orientation and training for the plant, and
- if a trained employee is available to provide on-the-job training and supervision

The company is under no obligation to train or schedule any employee so that they can maintain their competency for any job except where Article 15, Section 7 applies (layoffs in excess of 90 days).

Disagreements

Any problems that arise as a result of this change to the Printing Department line of progression will be dealt with by the joint Plant Committee.
