16.06 Reduction of the force for reasons of economy as distinguished from dismissals for proper cause shall be solely at the discretion of the Company. It is agreed, however, that any reduction of the force which might be made necessary be undertaken only after consultation with the Union.

The consultation shall include, where appropriate, the provision to the Union of appropriate financial information.

16.07 Reductions in the force within a department shall be accomplished by laying off first any temporary or extra employees; then the person or persons last employed as regular employees in the classification from which employees are to be laid off.

This adjustment in continuous service shall be made only for the purpose of calculating his/her entitlement to severance pay.

This Article shall not apply to employees affected by technological change severance in Article 18.

17.06 The period of any employee's service with the Company, for the purpose of this Article, shall mean the total period of consecutive and uninterrupted service of the employee concerned, except that:

- a) Breaks in service with the Company which were occasioned in circumstances over which the employee had no control shall not be regarded as an interruption;
- b) Leaves of absences granted by the Company to any employee, except where stated otherwise in Article 40, and the period of a layoff of an employee subsequently rehired following a lay off to reduce the labour force, shall not be regarded as an interruption in continuity of service, but the time actually spent away from regular duties shall not count as time served.

Technological change does not include normal layoffs resulting from a decrease in the amount of work to be done. In such cases the language in Article 16.06 (Layoff and Recall) will apply.

The Company agrees that it will not change its present technology before giving three months' notice of such proposed change to the Union, including information on the number and title of positions affected. The parties shall meet no later than ten (10) days following the date notice is given to consider all aspects of the technological change including the timing, procedure and training. The notice period may be extended a further three (3) months by mutual consent if the Company and the Union are unable to complete the arrangements required to ensure smooth implementation of the change.

i. Training

The Company agrees to provide facilities and sufficient time without loss of regular weekly wages in order that the required number of employees in the affected departments will become proficient in the operation of equipment, change in process or method of operation. This will enable the Union to provide sufficient competent members to meet the intent of this Agreement.

Training shall be offered to employees in accordance with their department priority standing/seniority. An employee who has not been afforded the opportunity to train shall not be laid off out of priority order or lose his/her preference claim.

The Company will identify areas within the business where vacancies will occur in various departments for which affected employees may be retrained. Such vacancies will be posted at the time the Union is given notice in Article 18.01. Where the number of affected employees is greater than the number of vacancies for retraining, selection will be made, where candidates are deemed equally suitable for retraining, on a seniority basis.

Any employee who refuses, without bona fide medical

reason, to train on the new equipment, change in process or method of operation in the affected department, and for whom a buyout is not available, will be dismissed without severance.

The Company will establish a jointly administered retraining program to enable affected employees to embark upon new careers. For any employee who might be affected, the Company will put \$5,000 into such a fund. This amount may be increased if suitable government funding is obtained.

The Company, with the mutual consent of the employee(s) affected and the Union, may assign to employees within the affected department work which is not normally within the jurisdiction of the Union on a temporary basis.

The employee's progress will be reviewed after three (3) months in the new position (which may be extended a further three months if it is the recommendation of the joint training committee), to ensure that the employee is progressing in his/her knowledge and skill required to be proficient in his/her new position.

After transfer, the employee shall receive the salary scale for the new position or the basic weekly salary he/she received immediately before leaving his/her previous position, whichever is the higher.

In the event an employee chooses to apply for a part-time position he/she will be paid at the appropriate hourly rate for such position or an hourly rate which he/she was paid in his/her previous position whichever is higher.

A transferring employee will maintain his/her original seniority and will suffer no loss of entitlement to any other benefits.

In the event that an affected Group A employee is, in the opinion of the joint committee, incapable of becoming competent after having been afforded the opportunity to take training for the new technology or for an alternative position for which he/she is deemed suitable and for which a legitimate vacancy exists; then the Company will have the right to sever such employee. The details of this retraining option are:

Upon successful completion of retraining for the new position as determined by the Employer, and upon acceptance of a new position, a transferring employee will be entitled to pro rata payment which reflects the reduction in his/her earning power, and which is based on the entitlement in the voluntary severance Article 18.03 i above.

A transferred employee will receive starting compensation at the mid point of the salary range for such position. Increases from then will be in accordance with the rules governing increases for the position.

An employee accepting a transfer and pro-rata severance who is subsequently laid off will receive severance in accordance with the terms and conditions in effect for the position to which the employee has transferred.

A transferring employee will maintain his/her original Company seniority and will suffer no loss of entitlement to any other benefits.

In the event that an affected Group B employee is, in the opinion of the joint committee, incapable of becoming competent after having been afforded the opportunity to take training for the new technology or for an alternative position for which he/she is deemed suitable and for which a legitimate vacancy exists; then the Company will have the right to sever such employee. Upon successful completion of retraining for the new position as determined by the Employer, and upon acceptance of a new position, a transferring employee will be entitled to pro rata payment which reflects the reduction in his/her earning power, and which is based on the entitlement in the voluntary severance Article 18.03 i above.

A transferred employee will receive starting compensation at the mid point of the salary range for such position. Increases from then will be in accordance with the rules governing increases for the position.

An employee accepting a transfer and pro-rata severance who is subsequently laid off will receive severance in accordance with the terms and conditions in effect for the position to which the employee has transferred.

A transferring employee will maintain his/her original Company seniority and will suffer no loss of entitlement to any other benefits.

In the event that an affected Group C employee is, in the opinion of the joint committee, incapable of becoming competent after having been afforded the opportunity to take training for the new technology or for an alternative position for which he/she is deemed suitable and for which a legitimate vacancy exists; then the Company will have the right to sever such employee. The severance terms will be the voluntary severance package outlined herein.

If the Employer is unable to obtain the necessary staff reductions through voluntary severance, retraining and/or transfer, Group C employees shall be subject to layoff. In that event, layoffs will occur in reverse priority/seniority order and such employees shall receive compensation as set out in the voluntary severance provision.

v. Group D

When there are to be reductions in a department, Group D employees who are affected may choose to elect to transfer to other vacancies in the business which become available no later than 30 days prior to the start up of the new equipment or systems, and only if the employee is deemed qualified by the Company to fill the position.

Training in this situation will be limited to that which a technically qualified employee would require to become familiar with a new piece of equipment or a new system.

A transferring employee will be paid compensation at the appropriate level in the range for the new position based on the level they were at in their former position.

A transferring employee will maintain his/her original Company seniority and will suffer no loss of entitlement to any other benefits."

Such days shall be paid for at double rates if worked, plus another day off with pay in lieu of the holiday, to be taken at a time mutually agreed between the employee and the Employer

32.04 The premium rate will be paid for any hours worked by an employee between 12:01 a.m. and 12 midnight on the day a statutory holiday occurs.

ARTICLE 33 VACATION ENTITLEMENT

All employees will earn vacation in accordance with Articles 33.01 – 33.05. Those employees employed as of the date of ratification will continue to take vacations as is currently the practice at their sites. Employees hired after the date of ratification will take vacations as detailed in 33.06.

33.01 Every employee shall be given vacation in accordance with the terms of this Article.

If that employee completes his/her fifth service year on August 7th, 2003 he/she will be entitled to take four (4) weeks vacation in 2003 and that four (4) weeks vacation is fully earned as of August 7th, 2003. That employee will be entitled to take four (4) weeks vacation in 2004 and that (4) weeks vacation is fully earned as of August 7th, 2004.

Part Time

33.09 Vacation pay for Part-Time employees will be as follows:

- a) Part-time employees receive vacation on a current year basis.
- b) Annual Vacation pay is earned on a part-time employees' percentage of FTE for the previous year. Vacation pay when a part-time employee takes vacation will be based on this percentage.
- c) At the end of each calendar year, vacation pay only will be recalculated based on the vacationable earnings for that calendar year and the employee will be paid any shortfall.
- d) In the case of an overpayment, the amount of the overpayment shall be deemed to be a pay advance that shall be recoverable from the employee in the form of a deduction from future vacation earnings.
- e) Vacation pay will be calculated in Hope as per past practice.

At the end of the current year, the Company shall calculate the vacationable earnings for each employee, which shall include the amounts paid for less than full weeks of vacation, for each employee, in order to determine the average regular weekly wage.

If this figure is higher than the two percent (2%) of the previous year's earnings, the difference will be paid to the employee by January 31st of the year following.

Each commissioned sales employee will be provided with information on how these amounts were calculated.

33.11 Substitutes and part-timers (i.e. employees who do not qualify for health benefits) shall receive vacation pay based on six percent (6%) of earnings paid with regular pay.

becomes a regular employee, but service date begins with the first shift worked as a substitute for the Company.

33.12 Permanent, part-time employees (employees who qualify for health benefits) shall earn vacations in accordance with 33.01 through 33.06 above.

Miscellaneous provisions

33.13 Any employee off work and being paid (excluding pregnancy/parental leaves) will continue to accrue vacation credits, which count towards vacation pay, but such credits will be limited to those earned for a maximum of one year.

33.14 If an employee does not take his/her full vacation entitlement within the calendar year in which it is to be taken, the Employer will require him/her to take that vacation prior to the end of February of the following year unless otherwise mutually agreed.

33.15 Upon termination of employment of an employee, or in case of death, he/she or his/her estate shall receive accrued vacation pay up to the date of his/her termination/death.

33.16 If an employee terminates and has taken vacation with pay which has not been earned by the time of termination, any excess payment shall be deemed to be a pay advance that shall be recoverable from the employee in the form of a deduction from any monies owing on termination.

33.19 Those employees wishing to take additional vacation time during summer vacation time may choose additional weeks only after all others in their department have had the opportunity to select vacation time off during summer vacation time provided that the Employer may prevent more than one employee being off at the same time when additional weeks are claimed.

33.20 At any one time one employee in any department will be entitled to be on vacation, except in Mission, Hope and Bowen Island where the Unionized employees will book vacations as if they are on one seniority board.

33.21 A second or third employee may be permitted to be off at the same time, subject to any contrary provisions of this Article and provided that the Employer may adjust such vacation schedules to minimize the impact on operations.

33.22 The normal period for taking vacations shall be from May 1 to October 31 inclusive. The Christmas-New Year Week and the School Spring Break shall also be considered the normal vacation period.

33.23 All employees shall be entitled to take their full vacation entitlement during the normal period but will not be required to do so.

33.24 Vacation schedules shall be arranged in accordance with sections 33.17-33.23 by the department manager, foreman or supervisor of the department or publisher if it applies after consultation with the chapel chair or shop steward.

33.25 Vacation lists must be completed and posted prior to March 17 of each year except by mutual consent of the chapel chair and the foreman or supervisor of the department or publisher if it applies.

33.26 Any employee who has not scheduled their full vacation entitlement by March 17 shall not be permitted to use their priority standing to displace another employee who has already scheduled vacation.

33.33 Vacations claimed prior to March 17 and as full

weeks will have priority over vacations taken of less than a full week. Subject to the other provisions of this section, this means a senior employee may not be able to claim less than a full week where a less senior employee has requested that same week as a full week of vacation. However, employees who wish to take part-week vacations shall not be unreasonably denied.

33.34 Vacation relief coverage provided by bona-fide journalism or marketing students, as defined by Article 35.02 (b), shall be compensated for their tenure at least in accordance with 35.04 (c), that is at 75% of the starting wage rate on the schedule of minima in the collective agreement.

LETTER OF AGREEMENT NO. 1
Re: OPERATIONAL PROCEDURES

between
COMMUNICATIONS, ENERGY AND PAPERWORKERS
UNION OF CANADA, LOCAL 2000
and
BLACK PRESS GROUP LTD.
(Lower Mainland Division)

Notwithstanding the jurisdiction language in this collective agreement, the parties agree that there shall be no jurisdictional issues raised by any of the parties to this collective agreement in respect to work assignments in the various departments, with the exception of disputes as to whether bargaining unit work is being performed by someone other than members of the Unions.

General

The Company agrees it will not subcontract any work unless it is unavoidable and in no case will it result in the layoff of regular full-time or part-time employees.

Management personnel may perform bargaining unit work if it was established as a past practice and does not eliminate or involuntarily reduce the hours of bargaining unit jobs.

Management personnel referred to above are as defined in the collective agreement.

Composition

The intent of this agreement with respect to composing employees is to allow the Employer to achieve efficiency and flexibility in the assignment of the work described herein.

It is mutually agreed that the jurisdiction and production flexibility provided here does not conflict with the basic concept recognized by the parties to this agreement of a composing bargaining unit, and that work is to continue to be performed by the composing room unit.

Local 2000 graphic artists will be considered a part of the composing room and hold their priority on the composing room priority board, as per their company seniority.

New graphic artists shall be hired as tradespersons at the key rate, unless hired as apprentices, and shall not be employed in an effort to eliminate full-time composing room employees.

In the event that a graphic artist is out of priority on the composing room board, said graphic artist may only perform traditional graphic artist work.

Editorial/Pagination

Compositors, graphic artists or journalists may perform the electronic composition of complete news pages, or that portion of pages represented by editorial news matter, including news and editorial graphics and illustrative matter whether black and white or colour line graphics or black and white or colour half tones.

Composing room employees may be selected and offered training in accordance with their department priority/seniority in electronic news composition, including operation of peripheral sub systems including electronic graphics equipment which operate on Macintosh-type platforms.

An employee who has not been afforded the opportunity to train shall not be laid off out of priority order or lose his/her preference claim.

Employees will work under the direction of an editor, as required after consulting with the composing room foreman.

Employees who are at the reporter level or above may input stories (including headings) that they have authored.

Publishers may input columns that they have authored.

Any information, however input, may be recalled for editing, rewriting and pagination by editorial employees who are at the reporter level or above.

Photographers may operate scanning devices and related digital equipment for the purpose of inputting, manipulating and editing any photographs which are to appear in the newspaper.

Display Advertising

Compositors and/or graphic artists may perform electronic make-up of display advertising or pages as required under an electronic composition system.

Compositors and/or graphic artists may operate equipment which may be used in conjunction with an electronic layout system for the purpose of digitizing advertising/editorial art work.

Any camera-ready or electronic material including that which arrives by modem, disc, CD-ROM, digital camera or any other method, will be received by Unionized staff.

The Unionized staff will verify that the ad is production-ready and in consultation with the client/ad staff, make the necessary revisions.

In the event that the use of camera-ready copy or electronic material increases during the life of this agreement to the extent that it becomes necessary to reduce a full-time or part-time regular employee (excluding substitutes and casuals), the tech change provisions of the agreement will apply.

Classified

Electronic composition of classified advertising pages, or a portion of such pages as required under an electronic composition system or make-up terminal, may be performed by composing room employees or classified advertising employees.

The operation of VDTs, OCRs or similar systems for the purpose of inputting all liner and semi-display classified

advertisements shall be performed by composing, classified or, in those sites where it has been past practice, other Unionized staff.

Receptionists, who are not members of the bargaining unit, will become Union members if they take classified ads on a regular basis.

Classified employees may recall all classified information for correction, addition or deletion.

Any camera-ready or electronic material including that which arrives by modem, disc, CD-ROM, digital camera or any other method, will be received by unionized staff.

The unionized staff will verify that the ad is production-ready and in consultation with the client/ad staff, make the necessary revisions.

In the event that the use of camera-ready copy or electronic material increases during the life of this agreement to the extent that it becomes necessary to reduce a full-time or part-time regular employee (excluding substitutes and casuals), the tech change provisions of the agreement will apply.

Newspaper dummyming

In the event that the Company implements an electronic dummyming system, such work will fall under the jurisdiction of the Union. Until then the current practice of preparing paper layout dummies will continue.

Freelancers/Outside Editorial Material

Freelancers shall not be used to displace or eliminate any regular employees, nor shall they be assigned work or be encouraged to submit work when staff members are available to perform the required work.

The Employer will not make it a practice to rely on freelancers in situations where the employment of a regular employee is practical.

Freelancers are not regular employees and may submit written or photographic material on an occasional or limited basis.

Any camera-ready or electronic material including that which arrives by modem, disc, CD-ROM, digital camera or any other method, will be received by unionized staff.

Editorial staff who are at the reporter level or above, and/or composing staff, will perform the electronic pagination of the material.

In the event that the use of camera-ready copy or electronic material increases during the life of this agreement to the extent that it becomes necessary to reduce a full-time or part-time regular employee (excluding substitutes and casuals), the tech change provisions of the agreement will apply.

Freelancers will not use any equipment owned or provided by the Company, except where past practice has existed.

LETTER OF AGREEMENT NO. 4 PRESS ROOM STAFFING LEVELS (Abbotsford)

between
COMMUNICATIONS, ENERGY AND PAPERWORKERS
UNION OF CANADA, LOCAL 2000
and
BLACK PRESS GROUP LTD.
(Lower Mainland Division)

Staffing Levels

1. During the life of this agreement there will be no less than a total of sixteen (16) regular situations in the Press Department, consisting of ten (10) regular journeymen/apprentice press situations and six (6) regular flyboy situations in the press hall.

Notwithstanding the above numbers of Press Department employees, both parties agree that Article 18 – Technological Change contained in the main agreement shall apply whenever circumstances may warrant.

At least two (2) people (one [1] of whom shall be a journeyman pressman and the other shall hold at least a second year apprentice status) shall be present when a press line is in make ready mode.

Press make ready will include all functions up to and including the webbing of the press and inch mode operation.

There shall be a minimum of 3 pressmen and 2 roll tenders per shift when printing.

Manning shall be as Appendix B attached.

Appendix B will not apply when employees are not available due to unscheduled absences that occur during the shift, however, every effort must be made, at the foreman's discretion, to replace such employees.

Foremen and assignment of work

2. The pressroom and bindery shall be under the authority and control of department foremen who shall be Union members, and in the absence of a foreman, an assistant foreman.

The foremen shall have charge of all work performed in the pressroom and bindery departments and all employees working therein.

The foremen shall assign all work and shall have the power to hire, or discharge for cause, a pressroom or bindery employee.

The foremen shall assign all work by priority, however, the foreman shall have the right to assign work out of priority if he/she deems such assignments are necessary to train or retrain employees.

Under no circumstances will the out of priority assignments reduce a member with greater priority from his/her shift or the board. In the event of any training the trainee will not be counted as part of the required manning.

Scheduling

3. There will be no more than two (2) shifts in the press hall. Day shifts shall be 38 hours and the graveyard shift 36 hours. In the event of a return to a 3-day week there will be 12 hour shifts, a 10% shift differential on days and paid lunches.

New shifts or new starting times shall be posted no later than 12 noon on the Monday preceding the week of the new shift or starting time.

Claiming for said openings or changes to close at 2 p.m. on Thursday preceding the week of the new shifts or new starting times.

Every quarter (January 1, April 1, July 1, and October 1) all shifts become open and shall be claimed by priority standing. Any claim for a change in shift must be made in writing at least one month prior to the opening.

Six (6) weeks postings will be put up on the board at the start and locked during the final two weeks:

As one (1) week comes off the list, a new week will go up posted schedules will go up every Monday.

Postings will be filled in by employees based on priority standing but in a manner that ensures there will be the required number of first aid attendants on shift (one [1] per shift).

On completion of the schedule the foreman, in consultation with the shop steward, will ensure that all shifts have been adequately covered.

It is understood that members may mutually agree to switch shifts as long as the resulting schedule change does not affect other regulars or first aid coverage.

Extras required for staffing (except for sickness and situations not under the control of the press centers) shall have twelve (12) hours notice prior to normal shift start time and remain for a minimum of six (6) hours except when discharged for cause or excused at their own request.

In the Press department, substitutes may be employed for a minimum of six (6) hours as long as manning levels are maintained.

The Company will ensure that, whenever the press schedule permits, press crews will be able to take a lunch break at the same time.

Extra days off (beg offs, sick time, etc.) will be filled at the foreman's discretion unless the lost time is known in advance (i.e. the following week or beyond) in which case regular members can then use their priority standing to fill any vacancies the foreman identifies as needing to be filled.

No regular situation holder shall be required to have more than two (2) starting times during a financial week. The Company will make every reasonable effort to ensure that presshall employees have one starting time in a financial week.

Apprentices

4. Apprenticeships shall be chosen from the flyboys group and the decision on hiring shall be made by mutual agreement with the Company and the Apprentice Committee of the Pressroom.

Apprentices will have no priority over regular journeymen situation holders for the purpose of claiming shifts, vacation time off or in the event of a layoff.

In the event that there is a need to reduce the workforce, an apprentice who has previously worked as a flyboy will have the right to be reduced to a flyboy position in accordance with his original date of hire as a flyboy.

It is understood that effective the date of the signing of this letter of agreement, all apprentices are guaranteed employment for the duration of their apprenticeship.

Upon commencement of the apprenticeship, the apprentice will be placed at the bottom of the regular board.

Any journeymen becoming regulars shall be placed behind said apprentice.

The apprentice shall retain Company seniority for purposes of vacations entitlement and other service credits.

The parties further agree that the apprentice will not be laid off on completion of apprenticeship, other than as necessitated by a decline in the volume of printed pages.

Press Operations Manager

5. The Press Operations Manager shall not perform bargaining unit work except as may be permitted by the terms of this agreement.

The Press Operations Manager may perform bargaining unit work for demonstration purposes, to assist in the training or instruction of bargaining unit members, and work of an emergency nature.

In the unlikely event insufficient employees are available for work due to, for instance, a sudden freeway closure or natural disaster, Press Operations Manager may perform bargaining unit work due to the operations emergency. (Emergency work may also be defined as action required to protect life, limb, equipment or property.)

The Press Operations Manager may perform work related to the installation and shakedown of new or retrofitted equipment including work to evaluate such equipment during the warranty period.

Additionally the Press Operations Manager may also perform repair and maintenance on equipment which does not result in a reduction of the work force.

Miscellaneous

6. There will be a chargehand (assistant foreman) for each given shift. The assistant will be paid an additional 10 per cent above the normal hourly rate.

Flyboys/roll tenders will alternate between jogging and roll tending over the course of a shift. The foremen/assistant foreman shall direct the rotation between job functions to ensure that the workload is distributed between the flyboys/roll tenders in a fair and safe manner.

Section 53 of the Act shall apply and at any time either party may request a meeting to review and adjust by mutual agreement the operating procedures.

During the life of this agreement, manning issues which cannot be resolved under Section 53 will be referred by the parties to binding arbitration.

6.01 — Spare board roll tenders shall receive pay raises based on hours worked as per the bindery agreement. In the event of a training issue the spare board roll tender shall be the extra body.

Substitutes

7. The following practices will apply to the operation of

the substitute board in the Black Press Group Ltd. Pressroom in Abbotsford (excluding Abbotsford bindery).

7.01 The rules of operation of these substitute boards will operate in accordance with the rules set out below.

The parties also agree that the following rules of operation will apply, regardless of specific Union rules which are contrary. However, unless specifically altered by the following, Union rules will apply.

7.02 It is agreed that the Union will endeavour to supply members when requested to do so by the Company. A job posting copied to the Union does not constitute such a request.

7.03 All applicants seeking employment as substitutes will first contact the foreman who will advise the shop steward before arranging an employment interview.

7.04 When an applicant is hired, the member will have his or her slip placed on the board by the shop steward.

7.05 An employee who has been hired by the foreman will be on probation for a period of twenty (20) working shifts or three (3) months, whichever is longer.

7.06 All substitutes shall be called in by the foreman in consultation with the shop steward.

7.07 A regular who wishes to call in a substitute will make such request to the foreman.

7.08 The foreman shall, in consultation with the shop steward, ensure that there are sufficient competent regular employees to perform all necessary functions.

It is the call of the foreman whether or not a substitute is required whenever a regular situation holder calls in sick or is otherwise absent.

7.09 Employment other than regular situations shall be classed as extra work and shall be given out in priority to the members competent to perform the work.

7.10 Twenty-four (24) hours notice will be required prior to reducing a regular situation holder to the substitute board in situations where the employee has less than six (6) months continuous service as a regular situation holder.

In situations where the employee has worked a minimum of six (6) months continuous service as a regular situation holder, twenty-four (24) hours notice will be required prior to reducing a regular situation holder to the substitute board in the following week.

7.11 A substitute who has worked more than twenty (20) shifts shall receive an amount of money equal to the value of MSP and health and welfare benefits for each shift worked thereafter, until the member qualifies for benefits under the plan.

As of November 29, 2006 this value is agreed to equal 70¢

per hour in addition to one's regular pay in lieu of benefits, for each straight time shift worked.

In addition, when the rates change for benefits the Company will revise the rate paid in lieu proportionally.

7.12 Substitutes shall not be entitled to bump a regular for overtime.

7.13 In the event a substitute is available for work and is not hired and overtime is called at the end of the shift, the substitute shall receive a day's pay for each nine and one half (9 1/2) hours of overtime worked on a day shift or a day's pay for each nine (9) hours of overtime worked on a graveyard shift.

It is understood that overtime called due to circumstances which were unforeseen at the beginning of the shift shall not trigger this section.

7.14 All regular situation holders shall be entitled to receive relocation pay on a reduction to the substitute board.

It is understood by both parties that qualification for eligibility to receive relocation pay shall be a minimum of six (6) months' continuous service as a regular situation holder.

Relocation pay shall be paid in a lump sum equal to the amounts provided under the severance section of the collective agreement.

The situation holder reduced to the substitute board shall decide within twelve (12) months after being reduced whether to apply for relocation pay.

7.15 Relocation pay will be based on continuous service as a regular and substitute, including this twelve (12) month period, as long as the substitute remains available for the service of the Company.

7.16 No one shall be eligible to claim relocation pay more than once, or to claim relocation pay in addition to severance pay.

No employee having claimed relocation pay shall apply for work with or be hired by the Company for the period covered by the relocation pay.

However, if a member repays the unused portion of any relocation pay, he or she shall be entitled to apply for work as a new substitute or regular, as the circumstances may dictate.

(Lower Mainland Division)

Staffing levels

1. There shall be thirty (30) regular situations in the Bindery by priority standing. The first eight (8) positions shall receive an annual average of thirty-four (34) hours wages per week.

The next five (5) positions shall receive an annual average thirty-two (32) hours wages per week.

Employees who normally work in shipping/receiving will not be counted in this number.

The seventeen (17) permanent part-timers shall receive an annual average of twenty (20) hours per week. Once these seventeen (17) situations have been scheduled for twenty (20) hours in a financial week, the remaining hours to be worked in that week will be offered to the casual staff until all casuals have been scheduled to work eighteen (18) hours. Once all casuals have been scheduled for eighteen (18) hours in a financial week, any remaining hours to be worked will be claimed by the seventeen (17) permanent part-timers based on their respective priority standing.

Whenever one of the top 30 employees goes on long-term disability, the top casual will move into this group for as long as that employee is off on her/his LTD claim.

The bindery supervisors' situations shall be counted in determining the top thirty (30) regular situations in the Bindery. However the bindery supervisors' situation shall not be counted when determining the number of staff required to operate the inserter pockets and the tying lines on a given shift.

Notwithstanding the above numbers of employees, both parties agree that the attached Letter of Agreement re: Technological Change - Bindery shall apply whenever circumstances may warrant.

Hours of work provisions

2. Casual employees shall not work less than four (4) hours per shift.

The Company agrees that the top thirteen (13) bindery positions shall be paid the above number of hours per week, regardless of the number of hours worked.

All hours worked in a year (including straight time and overtime) shall count in the calculation of the minimum guarantee.

All hours refused by an employee who has a minimum

guarantee will be counted toward a fulfillment of his/her minimum guarantee.

There will be no banking of hours.

The bindery employees will be paid for the number of hours that they work each week (Including any overtime hours).

At the end of January of any year, any shortfall in the guaranteed hours will be paid in the next pay period. ("Annualized guaranteed hours").

The greater of hours scheduled or hours worked will be counted towards an employee's annual average guaranteed hours. To this end, when an employee refuses a scheduled shift or begs off part of a shift, the refused or begged off hours will be counted towards the annual average guaranteed hours.

Any overtime worked (in excess of nine hours in a shift or 37.5 hours in one financial week) shall be paid on the next paycheque.

Bindery employees (excluding casuals for whom there shall be no limit on the number of start times) shall have not more than three (3) starting times during a work week.

In the event that there is a permanent reduction in the regular thirteen (13) positions, the next employee on the board shall move into the vacated position. It is understood that the added employee(s) will receive the appropriate annual average guarantee. This will be adjusted on September 1 of each year.

The Company and Union agree that the bindery department employees may, at the discretion of the foreman, work up to nine (9) hours per shift at the straight time rate. Bindery employees will also have the option to work a sixth shift in one financial week at the straight time rate to ensure that the top thirteen (13) bindery employees, in priority, shall have every opportunity to work 37.5 hours per week. (The parties agree that the intent is to work a 5-day week in the bindery. It is understood that at times a sixth optional shift may be required.)

The Company agrees that it will, where possible, provide two consecutive days off to the top 13 employees.

Assignment of work

3. The foreman shall assign all work by priority, however, the foreman shall have the right to assign work out of priority if the foreman deems such assignments necessary to train or retrain employees. Under no circumstances will the out of priority training assignments reduce a member with greater priority from his/her shift or the board.

It is understood that supervisors are on the bindery seniority board and claim shifts according to their priority on the bindery board. However, if there are more supervisors on a shift than are required, the supervisor

with the greatest seniority as a supervisor shall work as supervisor on that shift and be paid the premium rate. If there are shifts that no supervisor claims, the supervisor(s) with the least priority as a supervisor be required to cover that shift.

Scheduling

4. The Foreman or his/her designate and the Chapel Chair will develop a work schedule for the following week by noon Wednesday.

Employees have until noon Friday to request, in writing, a change in his/her shifts.

The revised schedule will be posted by 5 p.m. Friday.

The Foreman in consultation with the Chapel Chair will designate employees in priority to work the schedule, which will be posted.

If the employees are not on shift when the schedule is posted or changed, the Foreman will contact such affected employees to inform them of their hours of work.

It is expected that each employee will provide a reliable answering machine or messaging service, retrieve messages left by the Company and confirm whether he/she is able to work as scheduled.

The Foreman will make any changes which are required on short notice (i.e. person calling in ill) in order of priority.

The Chapel Chair will be granted the necessary time, without loss of pay, to comply with the above requirements.

Change to guaranteed hours

5. The parties agree that the guaranteed minimum number of hours are based on the Company's ability to maintain the current status quo (2002 insert volumes).

In the event that there is a significant decrease from the status quo based on the volume of inserts in the previous year in the bindery department, the parties agree that there will be a meeting of the Production Manager, Bindery Manager, the Chapel Chair and a member selected by the Chapel Chair to determine what action, if any, is required to reduce the number of hours being worked.

An agreed upon change in guaranteed hours will be implemented within seven days from the day the committee determines the necessary change, if any.

In the event the committee cannot reach a consensus then the parties will refer the matter to Don Munro for binding resolution.

Maintenance shift

6. There shall be a bindery department maintenance shift one (1) day per week consisting of one bindery department supervisor and one bindery employee.

The parties will meet to determine the appropriate time of training required for this position.

The maintenance employees will be paid the premium while actually performing maintenance work.

Call Back

7. If an employee is called back to work within six (6) hours of leaving the Company's property he/she shall be covered by Article 26 of this collective agreement.

Production Co-ordinator

8. The production coordinator position in the Bindery will be a separate classification and paid on the ad control grid.

Opt out

9. The top twenty-four (24) employees in the Bindery may, upon written request, agree to forego any call-in shift if the call-in has to be made after midnight on any night and, therefore, such employees will not be called.

If insufficient staff are available on a shift, staff shall be called in to work in reverse order of seniority.

Shift availability for casuals

10. A casual bindery employee shall lose priority standing and shall be deemed to be terminated from employment if, after the final schedule is posted by 5 p.m. Fridays, he/she unavailable to report for work when called in on three consecutive occasions or any three separate occasions in any two month period, without a reasonable excuse.

For the purposes of this clause a reasonable excuse shall include:

- a) Absence due to WCB claim;
- b) Illness, proof of illness may be required if the absence is greater than three days or where it appears a pattern of consistent or frequent absence is developing;
- c) Illness of a dependent child of an employee, where no one other than the employee can care for the child. Proof of illness may be required if a pattern of consistent or frequent absence is developing. Such leave will not exceed two days at any one time;
- d) Medical or dental appointments. Proof may be necessary;
- e) Vacations as provided for in Article 33 of this agreement;
- f) Leaves approved in advance by the Company; or
- g) Other reasons acceptable to the Company.

It is further understood that failure to report for a scheduled shift or a call-in shift to which a casual employee has agreed to work, could be just cause for termination.

Operation of pockets

11. No employee will be required to operate more than two (2) pockets. In the circumstance when an employee will be needed to service an insert of sixteen (16) tab pages (eight [8] pages broadsheet) or less then three (3) pockets will be permitted.

The main pocket operator will operate only one pocket where the jacket is fifty-six (56) tabloid pages (thirty-two [32] broadsheet pages) or greater.

Permanent Part-time Employees

12. Permanent part-time employees shall receive pro-rata vacation pay, pro-rata health and welfare benefits and pro-rata statutory holiday pay.

Permanent part-time employees will qualify for health and welfare benefits if they have 18 hours per week guaranteed under the contract.

Pension

13. Pension contributions for full-time and permanent part-time employees shall be made as a percentage of gross pay as contained in the current collective agreement.

Casual Employees

14. Casual employees shall be exempt from all benefit provisions of this collective agreement.

Newly hired casual employees will not be counted into the required minimum staffing levels until they have completed 5 shifts. During those 5 shifts, they will be rotated through all the job functions in the bindery and receive adequate training to perform all aspects of the job.

Premium Rates

15. Calculation of shift premiums will be based on the scheduled shift.

ADDENDUM

Personal Harassment

I. Policy Statement

Black Press, its associated companies, and its Unions are committed to the ideal of creating a working environment which is at all times supportive of the dignity and self esteem of individuals.

The Company will communicate this policy to all employees, provide appropriate education and training for supervisors and managers, establish a mechanism for dealing with complaints.

The policy will be embodied in all Union agreements and employee handbooks.

It is agreed that the President of the Union will receive a copy of the Complaint Officer(s) report at Step 2.3, Section IV herein and any other written reports or findings after Step 8.

II. Definition

Personal harassment is any behavior by any person in the workplace that is directed at and is offensive to an employee, endangers an employee's job, undermines the performance of that job or threatens the economic livelihood of the employee.

Personal harassment may be defined as repeated, intentional, offensive comments or actions deliberately designed to demean an individual or to cause personal humiliation. The definition includes such blatant acts of misuse of power as intimidation, threats, blackmail and coercion. Also included is favoritism of one employee to the disadvantage of another.

Personal harassment occurs when an individual uses his/her authority or position, with its implicit power, to undermine, sabotage or otherwise interfere with the career of another employee.

The Company hereby agrees that the above-mentioned behavior will not be tolerated and persons conducting such behaviour will be appropriately reprimanded.

III. Prevention

a) This policy will be made available to all employees either in their Union contract or employee handbook. In addition, it will be posted on all appropriate bulletin boards.

b) Employees and supervisors will receive education and/or training where applicable to enable them to recognize potential problems, assist with policy enforcement issues and in understanding the complaint procedures.

IV. Complaint Procedures

COMPLAINT OFFICER(S):

The Company shall identify Complaint Officer(s) for the purpose of this policy. The list of Complaint Officer(s) (see Schedule A attached) will be updated and published

regularly, in consultation with the Union. The list will include female contacts.

Complaint Officer(s) will have full authority to investigate the merits of the complaint and, while respecting the complainant's wish for confidentiality, conduct as quick and thorough an investigation as possible.

COMPLAINT AND INVESTIGATION PROCEDURE:

1.0 The complaint procedure must be flexible to achieve maximum accessibility and confidentiality. The recommended procedure for an employee who feels they are being harassed is as follows:

Tell the harasser clearly that the offending behaviour is NOT welcome. Remind the harasser that the behaviour is contrary to policy. The employee should keep a written record of dates, times, witnesses and nature of behaviour.

Often this is the simplest and most effective way to put an end to harassing and the Company encourages employees to take this action. However, victims of harassment are not obliged to confront the harasser and, if the harassee is unwilling or unable to do so, or if the misconduct continues after confrontation, the victim of harassment should report the offensive behaviour as outlined below.

2.0A victim of harassment may meet with any of the Complaint Officer(s) to review the complaint procedure, definition of harassment, etc. The complainant will be informed of the alternate courses of action including taking no further action if the complainant decides not to proceed.

The alternate courses of action in 2.0 above shall be as follows:

2.1 Cease further action under this Addendum and the harassee file a complaint under the Human Rights Act, OR;

2.2 The harassee file a complaint to the Publisher with a written copy of the complaint supplied to the president of the Union. This would allow the Publisher, the complaint officer and the harassee to attempt to resolve the complaint. In the event that the harassee is not satisfied with the Publisher's resolution under this section, the harassee may proceed with section 2.2 or section 3 hereunder. The parties agree that the time limit for the Publisher to resolve the complaint shall be ten calendar days. In the event that the Publisher is the subject of the complaint, the harassee shall proceed to section 3 hereunder.

3. If the complainant chooses to pursue the matter formally then a formal investigation will be undertaken. The complainant must submit a written complaint to trigger the investigation. The complainant will be kept informed of the progress of the investigation and input will be encouraged wherever possible.

4. The investigation will be commenced within three (3) work days and the complainant's identity will normally be

made known to the alleged harasser.

5. The investigating Officer(s) will initiate and complete the investigation as soon as possible. The Officer(s) will have full authority to investigate as set out above.

6. Once the investigation is completed the findings will be made known to the complainant and alleged harasser by the Complaint Officer(s). This may be done in written form or in a meeting.

7. The Complaint Officer(s) will attempt to achieve resolution of the complaint at this point.

8. If the matter remains unresolved the Complaint Officer(s) shall submit a written report to the Director HR, (or President of the Company when applicable) outlining the facts, issues and recommended resolution.

9. The Director HR, (or President of the Company when applicable) will then decide the issue and forward the decision to the complainant and (alleged) harasser in writing. The decision will be implemented immediately unless a further appeal ensues, as outlined in Section V following.

V. Appeal Procedures

1. Any party affected by this policy may appeal the decision of the Complaint Officer(s) or decision of the Vice-President (or President of the Company when applicable). Notice of intent to appeal must be made in writing to the Company President and President of the Union within seven (7) days of receiving a written decision which is disputed.

2. The President of the Company will take a further appeal to an outside Disputes Resolution Officer (DRO). This person will be selected from the list in Schedule B attached hereto. This persons listed here have agreed to serve in the capacity of resolving disputes arising from the personal harassment policy. Their appointment is hereby confirmed by the parties to this agreement.

The decision of the DRO will be binding. Once finalized, the DRO will forward the decision to the complainant and the (alleged) harasser in writing. The decision will be implemented immediately. (Possible responses - Schedule C attached).

SCHEDULE A

Personal Harassment Complaint Officers

This selection of Complaint Officers will enable employees at various levels involved in a dispute to choose someone from within the Company to hear their complaint.

The complainant may choose from any one or more of the Complaint Officers listed below. In the event that the Complaint Officer chooses to decline to hear the complaint, another Complaint Officer shall be mutually agreed upon.

The list of Complaint Officers will only be changed in consultation with the Union.

If either a Vice-President or President is chosen as a Complaint Officer, the report shall be made to the opposite party under Section IV, Steps 8 and 9.

Robin Clarke
Paula Carlson
Carly Ferguson

Mary Kemmis

SCHEDULE B

Personal Harassment Disputes Resolution Officers

The parties agree that issues referred to the Disputes Resolution Officer under Appendix A of this document shall be selected from the following on a mutually agreeable basis, between the complainant and the (alleged) harasser. If this does not result in mutual agreement, then the selection to be mutually agreed to between the Union and the Company.

In the event that mutual agreement is not possible, then the selection will be in rotation, starting with the first available on the list in this appendix. It is further agreed that on the second event where mutual agreement fails to select a DRO, the rotation shall start at the person next in line, on a first available basis.

The Union and Company agree to share costs equally for Disputes Resolution Officers when resolving members' disputes.

Grant McArthur (LRB)
Irene Holden
Jim Kelly

Joan McEwen
Brian Foley

SCHEDULE C

Disciplinary Responses

If harassment has been identified, any one of the following responses may be deemed to be appropriate in the circumstance.

- require a verbal or written apology by the harasser
- issue a written warning to the harasser
- reassign (transfer) the harasser to another area
- terminate the harassee's employment
- require the harasser to undergo mandatory counseling

NOTE: If, in the course of the investigation or appeal process the harassment charge is determined to be without merit the Complaint Officer or DRO will make such known, in writing, to all concerned parties.

Repeated, unfounded claims by an individual may result in harassment proceedings or disciplinary action.

**APPENDIX A
General Laws**

of the
Communications, Energy and Paperworkers
Union of Canada, Local 2000

Effective April 1, 1994

As used in the General Laws, the masculine, feminine or neuter gender, and the singular or plural number shall each be deemed to include the others whenever the context so includes.

ARTICLE I

Section 1. No Employer shall employ an apprentice unless the Employer has the equipment necessary to afford adequate training.

Section 2. Any person hired as an apprentice shall be at least sixteen years of age; and shall have satisfactorily passed an aptitude test given by the joint apprenticeship committee.

Section 3. The period of apprenticeship shall not exceed four years. The joint apprenticeship committee shall have authority to advance apprentices consistent with their ability to learn without approval of the Communications, Energy and Paperworkers Union of Canada, Local 2000.

Section 4. A local joint apprenticeship committee composed of equal representation of the Employers and the Union should be formed to make surveys and study, investigate and report upon apprentice conditions. The committee shall act to enforce the conditions of the agreement covering apprentices, and shall have full power and authority any time during the term of apprenticeship to terminate the employment of an apprentice who does not show aptitude and proper qualifications for the work, or for any other reason. This committee shall meet jointly at the call of the chairman of each committee at such time and place as may be determined by them. This committee shall have authority to vary training programs to meet the problems arising because of varying equipment of the shops under contract and shall have authority to direct temporary transfers of apprentices from one shop to another to accomplish as much all-around training as may be suited to the capacity of the apprentice.

Section 5. The foreman and chairman of the chapel shall see that the apprentices are afforded every opportunity to learn the different trade processes by requiring them to work in all classifications of the trade. When apprentices are judged competent in one work classification they must be advanced to the next step in the established training program.

Section 6. Apprentices shall be given the same protection as journeymen and shall be governed by the same shop rules, working conditions and hours of labour.

Section 7. No apprentice shall be employed on overtime work unless the number of journeymen working overtime on the same shift equals the ratio prescribed in the contract. Provided, when journeymen choose not to make

themselves available in sufficient numbers to meet contract commitments, the ratio may be waived by permission of the local Union. At no time shall an apprentice have charge of a department, class of work, or any other employee.

Section 8. Apprentices in military or naval service shall be counted as apprentices employed for the purpose of determining the number of apprentices permitted, unless the contract provides to the contrary.

Section 9. No apprentice shall leave one office and enter that of another Employer without the written consent of the joint apprenticeship committee.

ARTICLE II

Section 1. None but journeymen or apprentices may be employed to perform all work within the jurisdiction of the Union. The foreman shall be a journeyman.

Section 2. The foreman is the only recognized authority. Assistants may be designated to direct the work, but only the foreman may employ and discharge. In filling vacancies the foreman shall be governed by the provisions of Article V, General Laws.

Section 3. The foreman may discharge (1) for incompetency; (2) for neglect of duty; (3) for violation of office rules which shall be kept conspicuously posted, and which shall in no way abridge the civil rights of employees, or their rights under accepted Communications, Energy and Paperworkers Union of Canada, Local 2000 laws. A discharged journeyman shall have the right to appeal in accordance with the laws of the National as provided in the contract, and shall have the right to challenge the fairness of any office rule which is applied to bring about his discharge. Suspension is prohibited as a method of discipline.

Section 4. When it becomes necessary to decrease the force in an office where departments are not recognized it shall be determined upon what class of work the reduction is required. The journeyman with lowest priority standing in the office engaged upon the class of work indicated shall be discharged first provided, the journeyman to be discharged may claim any other work in the office such journeyman is competent to do which is being performed by a journeyman with lower priority standing: provided further, a journeyman claiming other work to avoid discharge to reduce the force shall not be exempt from discharge if incompetent.

Section 5. In offices where departments are recognized a decrease in the force shall be accomplished by discharging first the journeyman holding a situation who has the lowest priority standing in the department in which a decrease is necessary.

Section 6. A journeyman discharged to reduce the force shall be re-employed, either as a regular or extra, upon work such journeyman is competent to perform in the order of priority standing.

Section 7. In offices where departments are recognized a journeyman declared incompetent in one department shall

not be denied the privilege of seeking employment in another department nor be barred for incompetency within the meaning of Section 9 of this Article, while there is work in another department such journeyman is competent to perform.

Section 8. A journeyman discharged for any reason, may demand and the foreman shall give in writing the reason for discharge: provided, such demand shall be made within seventy-two hours after the journeyman is informed of discharge.

Section 9. A journeyman who has been discharged and who believes such discharge to be illegal or unjust shall have the right to appeal to the local Union in the manner provided by the laws of such local Union. If the local Union orders reinstatement the decision must be complied with until reversed. When a local Union has made specific provisions in its contract for reference of controversies over discharge to a joint agency, the dispute shall be decided as provided in the contract. A journeyman who has been discharged for any reason other than to reduce the force may be reinstated at the option of the foreman, or by proceeding in accordance with the terms of this section. A journeyman discharged for incompetency, neglect of duty or a minor reason shall not be denied the privilege of seeking work in the office for a period longer than six months.

Section 10. A foreman shall not designate any particular day, nor how many days a journeyman shall work in any one week: provided, the journeyman must engage a substitute when absent. Any journeyman covering a situation is entitled to and may employ in his stead whenever so disposed any competent journeyman without consultation or approval of the foreman: provided, local Unions may adopt laws requiring the employment of substitutes in the order of their priority standing; or for specified periods of severe unemployment emergencies, with the consent of the Union Officers, may establish provisions for equitable distribution of subbing among eligible substitutes.

Section 11. A foreman shall not be permitted to select the force from day to day, but must have such number of regular situations as are necessary to meet requirements and to reduce employment of extras to a minimum. Employment other than for regular situations shall be classed as extra work.

Section 12. Where contracts or agreements provide for holidays with pay, the foreman shall not be permitted to change regular off-days to such holidays in order to evade payment for the holiday.

Section 13. Except as provided in Section 2, Article 1, an employee's age shall not be a factor in employment or separation from employment.

Section 14. No journeyman shall be required to submit to a physical examination as a condition of employment.

ARTICLE III

Section 1. When departments are recognized priority shall date from time of accepting work in the department either

by original employment or permanent transfer.

Section 2. When departments are not recognized an employee shall not be discharged to reduce the force or for incompetency while there is work in the office such employee is competent to perform and to which such employee is entitled by priority.

Section 3. When departments are recognized by agreement no transfer shall be made except in emergencies: provided, when all available extras are hired in any department transfers may be made into that department.

Section 4. Regulations applying to transfers are for the purpose of preventing discrimination in the hiring of journeymen seeking work as extras. The hiring of more journeymen than are needed in one class of work or department and later transferring journeymen from this class of work or department to work which could have been done by others not hired, but entitled thereto because of their priority is discriminatory.

Section 5. Transfers are not required to permit journeymen to exercise priority upon a vacancy either regular or extra, which the journeyman is not qualified to fill: provided, transfers made for the convenience of the office shall be made to permit cancellation of overtime or observance of the five-day law and for the convenience of journeymen desiring to engage a substitute.

Section 6. Journeymen transferred to a class of work upon which they do not claim competency shall not be discharged for incompetency nor shall a foreman be permitted to make transfers which are discriminatory or for the purpose of depriving other journeymen of work to which they are by priority entitled.

ARTICLE IV

Section 1. Local Unions at all times have the right to define as struck work composition and mailing room work executed wholly or in part in shops not under contract relationship with a local Union of the Communications, Energy and Paperworkers Union of Canada, Local 2000, and composition, mailing room, or other work coming from or destined for printing concerns which have been declared by the Union to be unfair, after which employees may refuse to handle the work classified as struck work.

ARTICLE V

Section 1. Persons considered capable as substitutes by foreman shall be deemed competent to fill regular situations, and the substitute oldest in continuous service shall have prior right in the filling of the first vacancy. This section shall apply to incoming as well as outgoing foremen.

Section 2. Local Unions shall establish a system for registering and recording priority standing of journeymen in all chapels, which shall be conspicuously posted or kept in a place within the chapel accessible to journeymen at all times. The priority standing of a journeyman shall stand as recorded.

Section 3. No journeyman shall hold priority in more than

one office nor shall a journeyman retain priority standing or a situation in an office if such employee performs work over which the Communications, Energy and Paperworkers Union of Canada, Local 2000 has jurisdiction, either supervisory or mechanical, in another printing office whether or not the journeyman is interested financially or otherwise in said office: provided, that in the event of a strike or lockout involving a substantial number of journeymen, the local Union where such strike or lockout exists may adopt a law that will provide that journeymen involved may establish priority rights in another chapel in the same jurisdiction, and in the event of a settlement of said strike or lockout may relinquish priority so established and be granted their former priority standing in the struck or locked out plant: provided further, local Unions may establish regulations whereby journeymen may be permitted to accept temporary employment in another office without loss of situation or priority standing, and under such regulations may excuse journeymen who accept such temporary work from giving it out as overtime to any journeyman who refused to accept such temporary work.

Section 4. Local Unions may establish regulations permitting a situation holder, or a substitute having established priority standing, to engage in pursuits other than at the trade for a period not to exceed ninety calendar days in any twelve month period without loss of situation or priority: provided, journeymen exercising this privilege shall employ the priority substitute competent to perform the work.

Section 5. Local Unions may establish regulations permitting a situation holder, or a substitute having established priority standing, to accept temporary employment in another office without loss of situation or priority standing while attending an approved technical training facility. Such employment shall be on a non-priority basis and journeymen exercising this privilege shall employ the competent priority substitute.

Section 6. Any journeyman engaged to serve the Communications, Energy and Paperworkers Union of Canada, Local 2000, a local Union, or to perform work in the interest of the organized labour movement, shall employ while absent the first available competent priority substitute. Journeymen performing aforesaid work, or any journeyman incapacitated by illness, shall not suffer loss of situation or priority standing while so employed or so incapacitated, in the event a substitute is not available. Available priority substitute competent to perform the work must be employed on any new situation created because of the absence of a situation holder whose priority is protected under the provisions of this section or other sections of Union laws or contracts. Local Unions shall adopt laws specifying the time, which shall be not less than thirty nor more than ninety calendar days, after which such new situation shall be filled. Should a substitute with greater priority become available, such substitute shall be placed on said situation. Upon reporting for duty full priority rights shall be restored to the situation holder who was absent.

Section 7. Journeymen and apprentices admitted as residents of the Union Printers Home and journeymen and apprentices in the armed forces of Canada or those who may engage in war work for the Red Cross, or other similar accredited agencies shall have their priority and/or situations protected for such time as they are so engaged: provided, journeymen serving in the armed forces whose priority is protected under the provisions of this section may, while so engaged, seek work within the jurisdiction of a sister local subject to conditions prescribed by the Union Officers.

Section 8. Journeymen and apprentices in the Reserve of the armed forces of Canada, or other such organizations, shall have their priority protected while serving tours of active duty with such organizations in time of peace: provided, when priority is protected under Sections 6 or 7 of this Article, a journeyman or apprentice shall be considered to have full-time employment at the printing trade except when all available substitutes have been hired and such journeymen are eligible to cancel accumulated overtime of other journeymen only when voluntarily granted.

Section 9. A foreman employed from outside the shop shall accumulate no priority standing during period as foreman.

Section 10. A journeyman with established priority in an office may work for the same firm performing work other than work within the jurisdiction of the Union without loss of priority in the composing room or the mailing room.

ARTICLE VI

Section 1. Five shifts shall constitute a situation and no employee performing any work within the jurisdiction of the Union shall be required or permitted to hold a situation composed of more than five shifts or less than five shifts within a financial week, except when a contract has been entered into for a shorter work week of no more than eight hours per shift. All time worked in excess of the unit of hours comprising a regular shift and all time worked in excess of the number of hours established as a regular situation shall be considered overtime. No journeyman or apprentice may work an additional shift in excess of the contractual workweek at less than the overtime rate.

Section 2. Not less than time-and-one-half of the individual's hourly rate of pay shall be paid for any shift worked in excess of the number established as a regular situation within a financial week. When a journeyman or apprentice is required to work on a regular off-day or off-night not less than the individual's overtime rate shall be paid for such work performed.

Section 3. Employees required to work in excess of the unit of hours established as a regular shift must receive the overtime rate for all excess time. The overtime rate shall be not less than one and one-half times the employee's hourly rate for the shift on which work is performed. A foreman performing executive or clerical work exclusively is not subject to overtime laws. A foreman who does any work within the jurisdiction of the

Union at any time is subject to the overtime laws. In extreme emergencies, such as fire, flood or disaster, the overtime rate may be waived by the local Union as the contracting party.

Section 4. Where journeymen work during a regularly scheduled vacation period and receive pay in addition to vacation pay for such time worked, such time worked shall be classed as overtime at the ratio of day for day.

Section 5. Local Unions shall have full authority and the responsibility to adopt regulations for the complete government of overtime.

ARTICLE VII

Section 1. Establishing or maintaining situations composed of less than the number of shifts constituting a week's work as provided in Section I, Article VI, General Laws, thereby creating and controlling extra work constitutes the operation of a sublist and is prohibited.

Section 2. Laying off a situation holder and employment of another journeyman as an extra to perform work which the situation holder is competent to perform and is entitled to by priority is prohibited.
