APPENDIX C

PROFIT SHARING

For the purpose of this C.B.A., the profit sharing is payable during the calendar quarter (the payment quarter) shall be determined by the average price of copper in Canadian dollars in the preceding calendar quarter (the measurement quarter).

The average price of copper in a measurement quarter shall be determined by averaging the average monthly copper price for each month in the measurement quarter as determined using the London Metal Exchange settlement quotation for copper as published in Platt's Metals Week under the heading "L.M.E. Settlement," converted to Canadian dollars using the average monthly U.S. dollar to Canadian dollar exchange rate. The conversion to Canadian dollars will be made using the monthly average of the Bank of Canada's daily Canadian dollar to U.S. dollar closing rate. The average price of copper in Canadian dollars shall be rounded up or down to the nearest whole cent.

Based upon the average price of copper in Canadian dollars in the measurement quarter, profit sharing payments will be made during the payment quarter. Payments will be calculated by a) multiplying hours worked in the applicable measurement quarter by the employees base rate(s) for such hours during such measurement quarter, then b) multiplying the sum in a) by the applicable percentage in the chart below:

Average Copper Price:	Profit Sharing Payment:
\$4.47 Canadian or greater	5%
\$4.35	4%
\$4.23	3%
\$4.12	2%
\$3.88	1%

For clarity, if an employee works at jobs with the different base rates during the measurement quarter, then the sum in a) above would be calculated by multiplying the hours worked at each base rate.

On October 1st of each year, the average copper price in the above table will be increased by the most recent average annual Canadian CPI as per Stats Can.

Any funds payable under this plan will be paid quarterly by separate payment to each employee. An employee whose employment ends for any reason other than termination of just cause before the end of a measurement quarter shall receive a pro-rated payment based on the hours worked up until the last day worked in the applicable measurement quarter, at the normal time payments are made. Employees terminated for just cause during a measurement quarter will receive no payment on account of that measurement quarter.

A quarterly statement will be provided to the Union showing the hours and amount paid.

For clarity, payment for the present quarter shall be pro-rated based on hours worked after the date of this award.
